ARGUMENTS RELATIVE TO VARIANCE REQUEST FOR RESIDENTIAL ASSESORY DWELLING UNIT EXPANSION ON LAND OWNED BY JOHN AND DEANA DELVECCHIO

Map 55, Lot 6762, 18 Samoset Drive

A. Background

The landowner proposes to expand the existing 750 square foot, 2-bedroom, single story accessory dwelling unit (ADU) at 18 Samoset Drive by constructing a second floor to the ADU. This will bring the total floor space of the ADU to 1,806 square feet (SF) where 950 SF is allowed by the ordinance. No additional bedrooms are proposed for the property.

The property is 8.5 acres in the Rural zone and currently consists of a 4-bedroom house with 2-bedroom ADU, for a total living area of 6,826 SF (per assessing records). There is also a detached garage and pool on the property. The property is served by onsite water and state-approved onsite septic.

The existing ADU was constructed from 2-bays of a 3-bay garage. Town records show the building permit was granted in August 2023.

The project will result in a more comfortable home for the owner's daughter and grandson by increasing the area over the existing structure while maintaining the same number of bedrooms. The expansion of the ADU will not result in any added impervious area.

B. Variances Requested

We respectfully request the following variance to the Salem Zoning Ordinance:

- **Article VIII Section 490-801C (4)** to allow an ADU to have 1,806 SF of floor space where the ordinance allows a maximum of 950 SF.

The following arguments are presented in support of this variance request:

C. The Five Variance Criteria

These arguments correspond to the criteria found on completed variance application forms.

1. The variance will not be contrary to the public interest because:

- The requested variance will not result in a change to the character of the neighborhood. The expansion to the ADU will maintain a high-quality residential appearance that matches with the rest of the residence;
- It will not create any health or safety hazards because no additional bedrooms or use are proposed;
- It will not impact any wetlands;

2. The spirit of the ordinance is observed because:

- The expanded ADU will maintain neighborhood aesthetics and quality, as required by the ordinance;
- The proposed ADU is an allowed use in the Rural District;
- The expanded ADU will meet all dimensional requirements for the zoning district;

3. Substantial justice is done because:

- The construction of the expanded ADU would allow for residential family support for the property owner;
- The additional space meets all requirements of the building code and there is no apparent “gain” to the public by denial of the request given the large size of the property;

4. The values of surrounding properties will not be diminished because:

- Improvement to the property will increase subject property and abutting property values;
- The nature of use and the appearance of the structure will be consistent with the neighborhood and to the current property;

5. Literal enforcement of the provisions of the ordinance would result in an unnecessary hardship. USE (A) or (B):

The “Special Conditions” of this property that distinguish it from other properties in the area are as follows:

- This is a large 8.5 acre property that can easily support the minor increase in living area that is proposed;

(A)Owing to the special conditions of the property, set forth above, that distinguish it from other properties in the area:

(A)(i) No fair and substantial relationship exists between the general public purposes of the ordinance and the specific application of that provision to the property because:

- There is no benefit or gain to limiting the square footage to ADU given how large the property is;
- The expanded ADU can be constructed without need for an expanded footprint of the existing ADU, further demonstrating that this is a reasonable request for such a large property;

(A)(ii) The proposed use is reasonable one because:

- The use is reasonable because this is a large 8.5 acre (370,260 +/- SF) property that easily supports the minor 15.47 % increase in floor space that will result;
- Given the large property and no additional bedrooms proposed, there will be no negative impact to the surrounding area;

If the criteria in subparagraph (A) are NOT established, an unnecessary hardship will be deemed to exist, if and only if:

(B) Owing to the special conditions, set forth above, the property cannot be reasonably used in strict conformance with the ordinance, and a variance is therefore necessary to enable a reasonable use of it because:

- Not used.

Zoning Classification: Business Office I / Residential

Are there any current Zoning Violations on the Property other than those that may be listed on this Application? (If Yes, please fully describe below). YES _____ NO X _____

The undersigned hereby requests a variance from Article IV, Section 490-401(C)(1) and asks that said terms of the Zoning Ordinance be waived to permit the existing two-family structure to remain on a lot having 163.05 feet of frontage, where 190 feet would be required by Ordinance at 175 Main Street in the Business Office I District.

The undersigned alleges that the following circumstances exist to support this variance request.

1. **The variance will not be contrary to the public interest because:** The proposed use will not result in any threat to the health, safety and general welfare of the community; a prior variance was granted to subdivide without realization that a frontage variance would be necessary; the Planning Board has already approved a subdivision of the property and the plan has been recorded at the Registry; the character of the neighborhood is not changed, as Main Street in this area has several multi-family housing developments.

2. The spirit of the ordinance is observed because:

Residential Housing is an allowed use in the District; frontage requirement is to provide spacing and regulate density; the existing structure will be accessible from front and side; spacing along Main Street is similar to other parcels.

3. Substantial justice is done because:

The variance will rectify an oversight on a variance originally granted in 2024; subsequent action by the Planning Board has approved the subdivision, which has been recorded. There is no apparent gain to the Community by denying the request, which will compromise a residential housing project.

4. The values of surrounding properties will not be diminished because:

Structure currently exists, and there would be no physical modifications in allowing the structure to remain.

5. Literal enforcement of the provisions of the ordinance would result in an unnecessary hardship because: USE (A) or (B).

The “Special Conditions” of this property that distinguish it from other properties in the area are as follows:

The lot was created through a recent subdivision and the frontage issue was not discovered; the adjoining lot has been the subject of significant engineering and design.

(A) Owing to the special conditions of the property, set forth above, that distinguish it from other properties in the area:

(i) No fair and substantial relationship exists between the general public purposes of the ordinance and the specific application of that provision to the property because:

The lot was developed at a time when two-family dwellings were developed without additional required frontage.

(ii) The proposed use is a reasonable one because:

It continues to allow additional housing opportunities similar to others which exist on Main Street.

-OR-

If the criteria in subparagraph (A) are NOT established, an unnecessary hardship will be deemed to exist, if and only if:

(B) Owing to the special conditions, set forth above, the property cannot be reasonably used in strict conformance with the ordinance, and a variance is therefore necessary to enable a reasonable use of it because:

By filing this application you are authorizing us to come onto your property to do necessary site inspections.

Two certain parcels of land with the buildings thereon situated in Salem, Rockingham County, New Hampshire and bounded and described as follows:

PARCEL 1:

A certain tract or parcel of land with the buildings thereon, situated in Salem, County of Rockingham, and State of New Hampshire bounded and described as follows:

Beginning at the Southeast corner of the premises on the North side of the highway leading from Salem Depot to Salem Centre at land formerly of Ben Haigh but now of the Southern New Hampshire Street Railway Company; thence Northerly by land of said Railway Company by wall six hundred seven and seventy-five hundredths (607.75) feet to a ditch at meadow land now or formerly of the heirs of Varnum Corliss; thence Westerly by the ditch at said Corliss land one hundred eight-seven and forty-hundredths (187.40) feet to a stake and stones at land formerly of Lizzie S. Martin; thence Southerly by the line of the old wall and said Martin's land about three hundred sixty-eight and twenty-hundredths (368.20) feet to a stone bound which bound is two hundred sixty-three and ten hundredths (263.10) feet from the highway; thence Easterly at nearly a right angle along other land belonging to Francis Bessey sixty-three and sixty-hundredths (63.60) feet to a stake and stones; thence Southerly at a right angle along other land belonging to Francis Bessey two hundred fifty-five and sixty-hundredths (255.60) feet to the highway above mentioned; thence Easterly by the highway one hundred sixty-three and five hundredths (163.05) feet to the bound begun at.

Excepting and reserving from the above-described premises, two parcels of land, one conveyed by David E. Stevens to Walter S. Buckler, July 6, 1929 recorded in Rockingham Records, Book 842, Page 122; and the other parcel conveyed by the said David E. Stevens to Deina K. Simpson, March 16, 1936, recorded in Rockingham Records, Book 920, Page 85.

PARCEL 2:

A certain tract or parcel of land situated in said Salem, in that part thereof known as Salem Depot, on the northerly side of Main Street, a short distance east of the Depot on the road to Salem Centre, and more particularly bounded and described as follows:

Beginning at an iron pipe at said Main Street and at a hedge at other land of the grantor; thence by and along said grantor's land North 2° 42' west and by and along said hedge and a stone wall, five hundred sixteen and ninety-five hundredths (516.95) feet to a stone bound at land now or formerly of Kimball M. McLaughlin, thence by and along said McLaughlin land, now or formerly, South 83° 57' east one hundred one and two-tenths (101.2) feet to an iron pipe at land of the heirs of William T. McNally; thence by and along said land of the heirs of Wm. T. McNally, South 2° 42' east five hundred four and six-tenths (504.6) feet to an iron pipe at said Main Street; thence by and along said Main Street South 89° 2' west one hundred (100) feet to the point of beginning, and subject to rights of way of record, if applicable.

Excepting that portion conveyed to Linda R. Gudek by Deed of Patricia A. Mills, dated May 23, 1994, and recorded at the Rockingham County Registry of Deeds on May 24, 1994 at Book 3053, Page 2325.

This is not homestead property.

The above described property is also shown as SPM 90-1288 containing 140,386 square feet, more or less, on Plan D-22746 recorded in said Registry.

Meaning and intending to convey the same premises as conveyed to the within Grantor by deed of Patricia A. Mills, dated January 22, 2019, and recorded at Rockingham County Registry of Deeds in Book 5980, Page 1283. Patricia A. Mills aka Patricia Ann Mills died on May 30, 2023, see death certificate recorded in Rockingham County Registry of Deeds on July 24, 2023, in Book 6496, Page 1746.

**Re: Salemi Variance Request
175 Main Street – Map 90, Lot 1288
Variance Petition 03-2025-0049**

Dear Sir:

It has come to my attention that the subdivision plan I was using to prepare the above-referenced application contains a "discrepancy" which resulted in a measurement error in the application. Consequently, it will be necessary to withdraw the pending application request.

My office will be filing a revised application for consideration at the February meeting.

Yours truly,

Location of Property: Map 108 Lot 12657 & Map 108 Lot 12501

Zoning Classification: Commercial-Industrial C/Large Scale Redevelopment
Ordinance

Are there any current Zoning Violations on the Property other than those that may be listed on this Application?

(If Yes, please fully describe below). YES__ NO X

The undersigned hereby requests a variance from Article VII Regulations, Section 490-702 E(2) and asks that said terms of the Zoning Ordinance be waived to allow two off-site freestanding signs on Map 108 Lot 12501 in the parking and access areas for the tenant (Whole Foods) located on the adjacent lot identified as Map 108 Lot 1265, where offsite signage is not allowed under the sign ordinance per section 490-702 E(2). The Tuscan Village Tenant and Site Sign Standards allow these types of signs (freestanding) with the exception of the advertising for offsite premises, therefore a variance for the two freestanding signs is required.

The undersigned alleges that the following circumstances exist to support this variance request.

1. The variance will not be contrary to the public interest because:

The proposed freestanding signs are designed to provide the public and patrons of Whole Foods with directional signage that will guide them to the location of the store from Route 28 access (Via Toscana). The off-site advertising for Whole Foods by use of freestanding monument signs is what requires relief from the sign ordinance as it is defined as an offsite sign. The configuration of the parcels, the parking lots and driveway access for Whole Foods is located on the adjacent offsite parcel, which will necessitate the use of the two off premises freestanding monument signs for proper advertising and direction of patrons utilizing the Whole foods store. The two freestanding monument signs will be located within the interior parking lot and access driveway for Whole Foods along the frontage with South Broadway. The use of freestanding monument type signs is allowed in the Tuscan Village Tenant and Sign Standards, however only one of these types of signs per tenant is allowed. The second sign will require a conditional use permit for the second sign if the variance is approved. Allowing the use of these two freestanding monument signs in an off-site location will not adversely impact public health, safety or welfare and therefore is not contrary to the public interest.

2. The spirit of the ordinance is observed because:

The purpose of the Sign Ordinance is to regulate the erection of signs for the purpose of providing information and advertising in an orderly, effective, and safe manner. Restrictions on the type, location and size of signs protect the public from hazardous and distracting displays and create an attractive environment which is conducive to business, industry, and tourism. The proposed freestanding monument signs will not create a hazardous or distracting situation for the public and will in fact be conducive to business, industry, and tourism for the Town of Salem. The location of the first freestanding monument sign at the entrance to the site is necessary to direct traffic to the tenant's location which is several hundred feet away from the entrance and the second freestanding monument sign will be located at the entrance to the Whole Foods formal parking lot. Both signs will provide directional services as well as advertising. As stated above, allowing the 2 freestanding monument signs will not adversely impact the public health, safety or welfare and is not contrary to the public interest, therefore the spirit of the ordinance is observed.

3. Substantial justice is done because:

The Tuscan Village Development is a large-scale development which includes a mix of residential and commercial uses. The success of the project depends largely on the ability to get it built and occupied as a cohesive development, so that the various uses can complement and support each other. This type of signage (Freestanding monument signs) is allowed for individual businesses located in Tuscan Village. However, due to the configuration of the lots, there is not an opportunity to provide these signs on the Whole Foods parcel, therefore a variance is required for off-premises signage. Substantial justice will be ensured as these signs, although off-site from the business(Whole Foods), conform to the requirements in the Tuscan Village Tenant and Site Sign Standards.

4. The values of surrounding properties will not be diminished because:

These pedestrian style kiosk directories are located adjacent to the access driveway to the site and at the entrance to the parking area serving the business (Whole Foods) and are not located adjacent to any abutting non-Tuscan Village residential or commercial properties. Therefore, these freestanding monument signs will not adversely impact surrounding property values and in fact are likely to increase the property values of the development as a whole, thereby creating additional tax revenues.

5. Literal enforcement of the provisions of the ordinance would result in an unnecessary hardship because: USE (A) or (B).

The "Special Conditions" of this property that distinguish it from other properties in the area are as follows:

This property, the 170-acre former racetrack property, is being redeveloped under the Large-Scale Redevelopment Projects section of the Zoning Ordinance. There are no other properties in the area that are being developed under these provisions. The objective of the Large-Scale Redevelopment Projects section of the Ordinance is to create a mix of compatible land uses within a large redevelopment parcel and provide a unique experience for patrons and residents of the development as well as the Town of Salem and surrounding communities. This project, when completed, with over 3 million square feet of mixed-use development, creates that special condition that does distinguish it from other properties in the area.

(A) Owing to the special conditions of the property, set forth above, that distinguishes it from other properties in the area:

- (i) **No fair and substantial relationship exists between the general public purposes of the ordinance and the specific application of that provision to the property because:**

Due to the unique character of the Tuscan Village Development and the specific zoning that is allowed under the Large Scale Redevelopment Ordinance, it was soon realized that the signage needed by this type of development would be unique and that the current sign ordinance would not allow for the unique type of signage that is required for the development to be successful. Realizing this, the Planning Board adopted the Tuscan Village Tenant and Site Sign Standards that allowed signage that would potentially be needed for this type of development. The sign standards established were based on the base zoning of Section 490-702 Signs and allowed for conditional use permits for specific signage requests as well as other aspects such as number of signs and size of signs. The proposed freestanding monument signs are allowed by right under the Tuscan Village Sign Standards; however, the off-site aspect of the 2 freestanding monument signs is not allowed and therefore relief through a variance due to its definition as an off-site sign is required.

The uniqueness of the Tuscan Village project and the signage allowed through its established Sign Standards makes the development competitive and successful and as a result there is no fair and substantial relationship that exists between the general public purpose of the sign ordinance (Section 490-702) and the specific application of that provision of the sign ordinance to the Tuscan Village property. Allowing the offsite component of the 2 proposed freestanding monument signs will not adversely impact public health, safety, or general welfare. Therefore, there is no benefit to the public that would outweigh the hardship that the project would incur if the advertising portion of these signs were not allowed.

(ii) **The proposed use is a reasonable one because:**

As noted above, this project is part of the Tuscan Village Large Scale Redevelopment Project, which has received approval from the Salem Planning Board pursuant to Section 490-710 of the Zoning Ordinance. The unique nature of the signage needed is critical to the continued success of the development, therefore the allowance of the offsite advertising of the proposed signs is reasonable given these conditions.

If the criteria in subparagraph (A) are NOT established, an unnecessary hardship will be deemed to exist, if and only if:

- (B) Owing to the special conditions set forth above, the property cannot be reasonably used in strict conformance with the ordinance, and a variance is therefore necessary to enable a reasonable use of it because:

By filing this application, you are authorizing us to come onto your property to do necessary site inspections.

The undersigned acknowledge that to the best of their knowledge all of the above information is true and correct.
