Summer Beach Testing Results June 2025

On June 12, 13 & 16, 2025, water samples from association and public beaches in Salem were collected and submitted for microbiological analysis to a NH accredited laboratory.

The samples were analyzed for bacteria, (E. coli), the indicator organism utilized to determine safe swimming conditions. At a freshwater beach, an **advisory** is posted if either **two** samples exceed the state standard of **88 counts** or when **one** sample exceeds **158 counts**.

Two samples were collected from each beach in accordance with the NH DES "Standard Operating Procedure for Bacteria Sampling". The following beach sites were sampled and the results are as follows:

<u>Location:</u>	<u>Results:</u>		
	<u>June 12</u>	<u>June 13</u>	<u>June 16</u>
Hedgehog Pond -----	16, 3		
Shadow Lake -----	5, 17		
Captain's Pond			
Camp Otter -----	1550, 1550		2, 6
Camp Hadar -----	41, 17		
Camp Y-Wood -----	155, 160		3, 3
Millville Lake -----	21, 10		
Arlington Pond			
Arlington Pond Improvement Assoc. -----	19, 23		
Second Street Beach -----	15, 13		
Griffin Beach -----	36, 22		

No Swimming Advisories were issued to Camp Otter and Camp Y-Wood. These advisories have been rescinded due to the subsequent tests to be in compliance.

All of the beaches are in compliance with the guidelines established by the NH DES for safe swimmable waters at this time.

Additional testing will be conducted in early July. Any questions, please feel free to contact the Health Officer at 890-2050.
