

Southern New Hampshire Regional Water Project – Route 28 Water Main  
**Bi-Weekly Progress Report**  
**April 13, 2020**

This report identifies work on the Route 28 Water Main Project that Revoli Construction has completed in the last two weeks and anticipates progressing during the next two weeks. Roads will remain open during the day, unless otherwise noted, and delays should be expected. There may be some night time work with alternating traffic around the work zone. Officers or flaggers will help you pass through the work zones. Thank you for your patience during construction.

**Last Two Weeks**

- Drilling and blasting operations in Windham continued along the project route.
- Water main installation continued moving south toward NH Route 111. Water main installation also continued in the northern section of Route 28 moving both north and south along the route.

**Paving a Driveway Apron**

**Fire Hydrant Installation**

**Another Hydrant Installation**

**Water Main Installation**

**Next Two Weeks**

- Water main installation will continue between the Rail Trail parking area in Windham and the Range Road intersection. Activities will continue to occur in other areas along the project route. Traffic will continue to be directed at all major road crossings to minimize impacts.
