

Town of Salem Master Plan

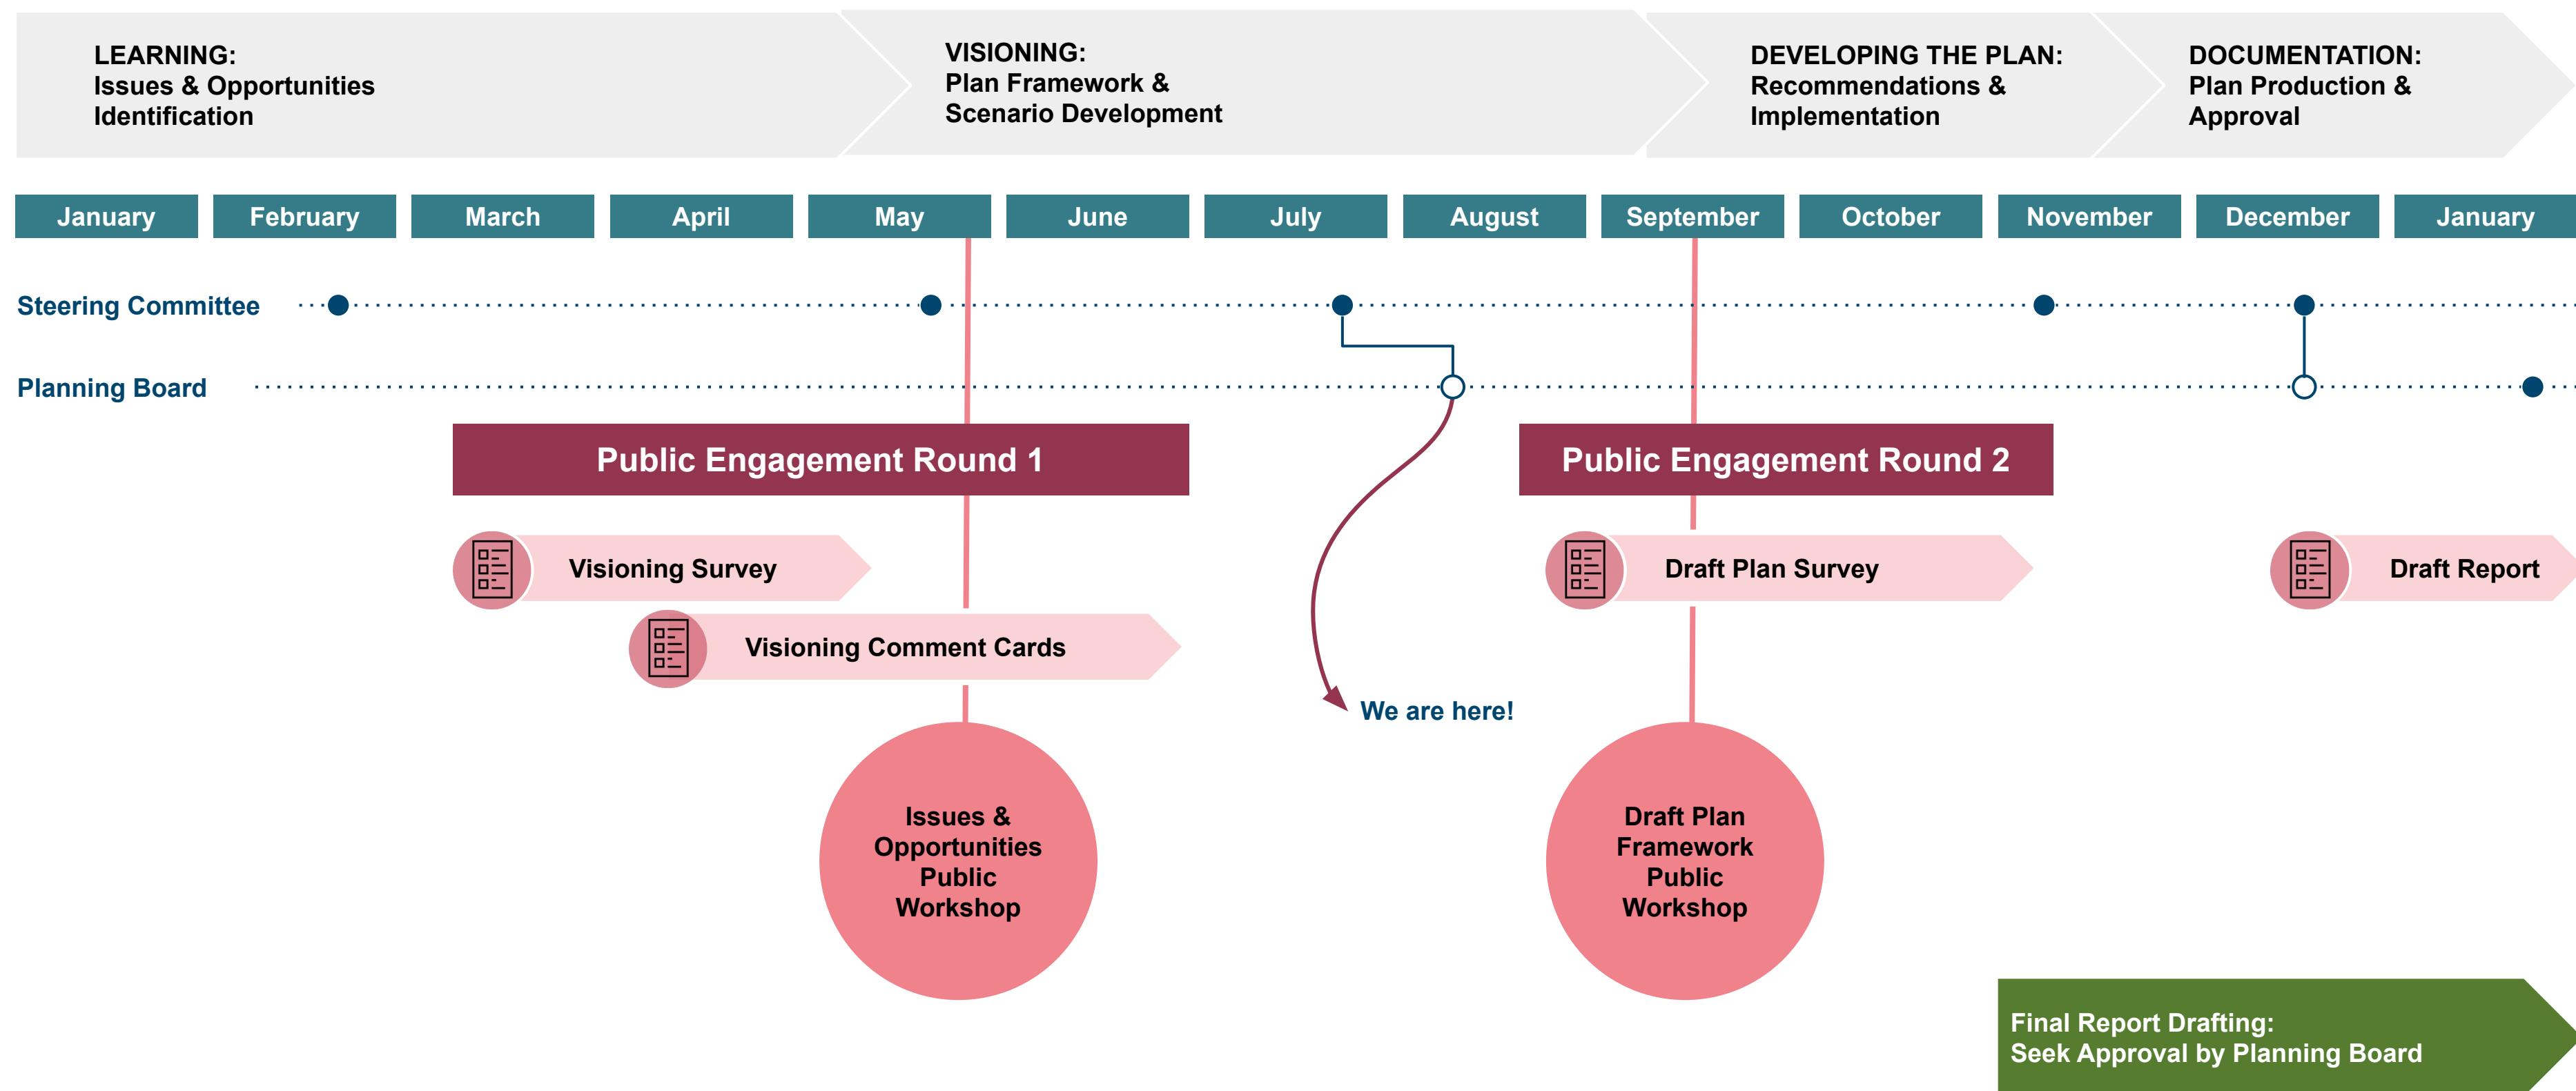

Planning Board Meeting #1
August 13, 2024

Agenda

- 1. Process & Timeline Update**
- 2. Public Workshop Engagement Summary**
- 3. Draft Plan Framework**
- 4. Development Vision Focus Areas**
- 5. Next Steps**

Planning Process Overview

Public Workshop Engagement Summary

Themes: Comment Cards

What do you **LOVE** about Salem?

- Community
- Growth (shopping convenience)
- Nature
- Education
- Corridors

What would you **CHANGE** about Salem?

- Housing affordability
- Growth (lack of regulation)
- Pedestrian safety
- Greener energy
- Establish town center

Map-Based Feedback

Where should Salem focus its
Town Center?

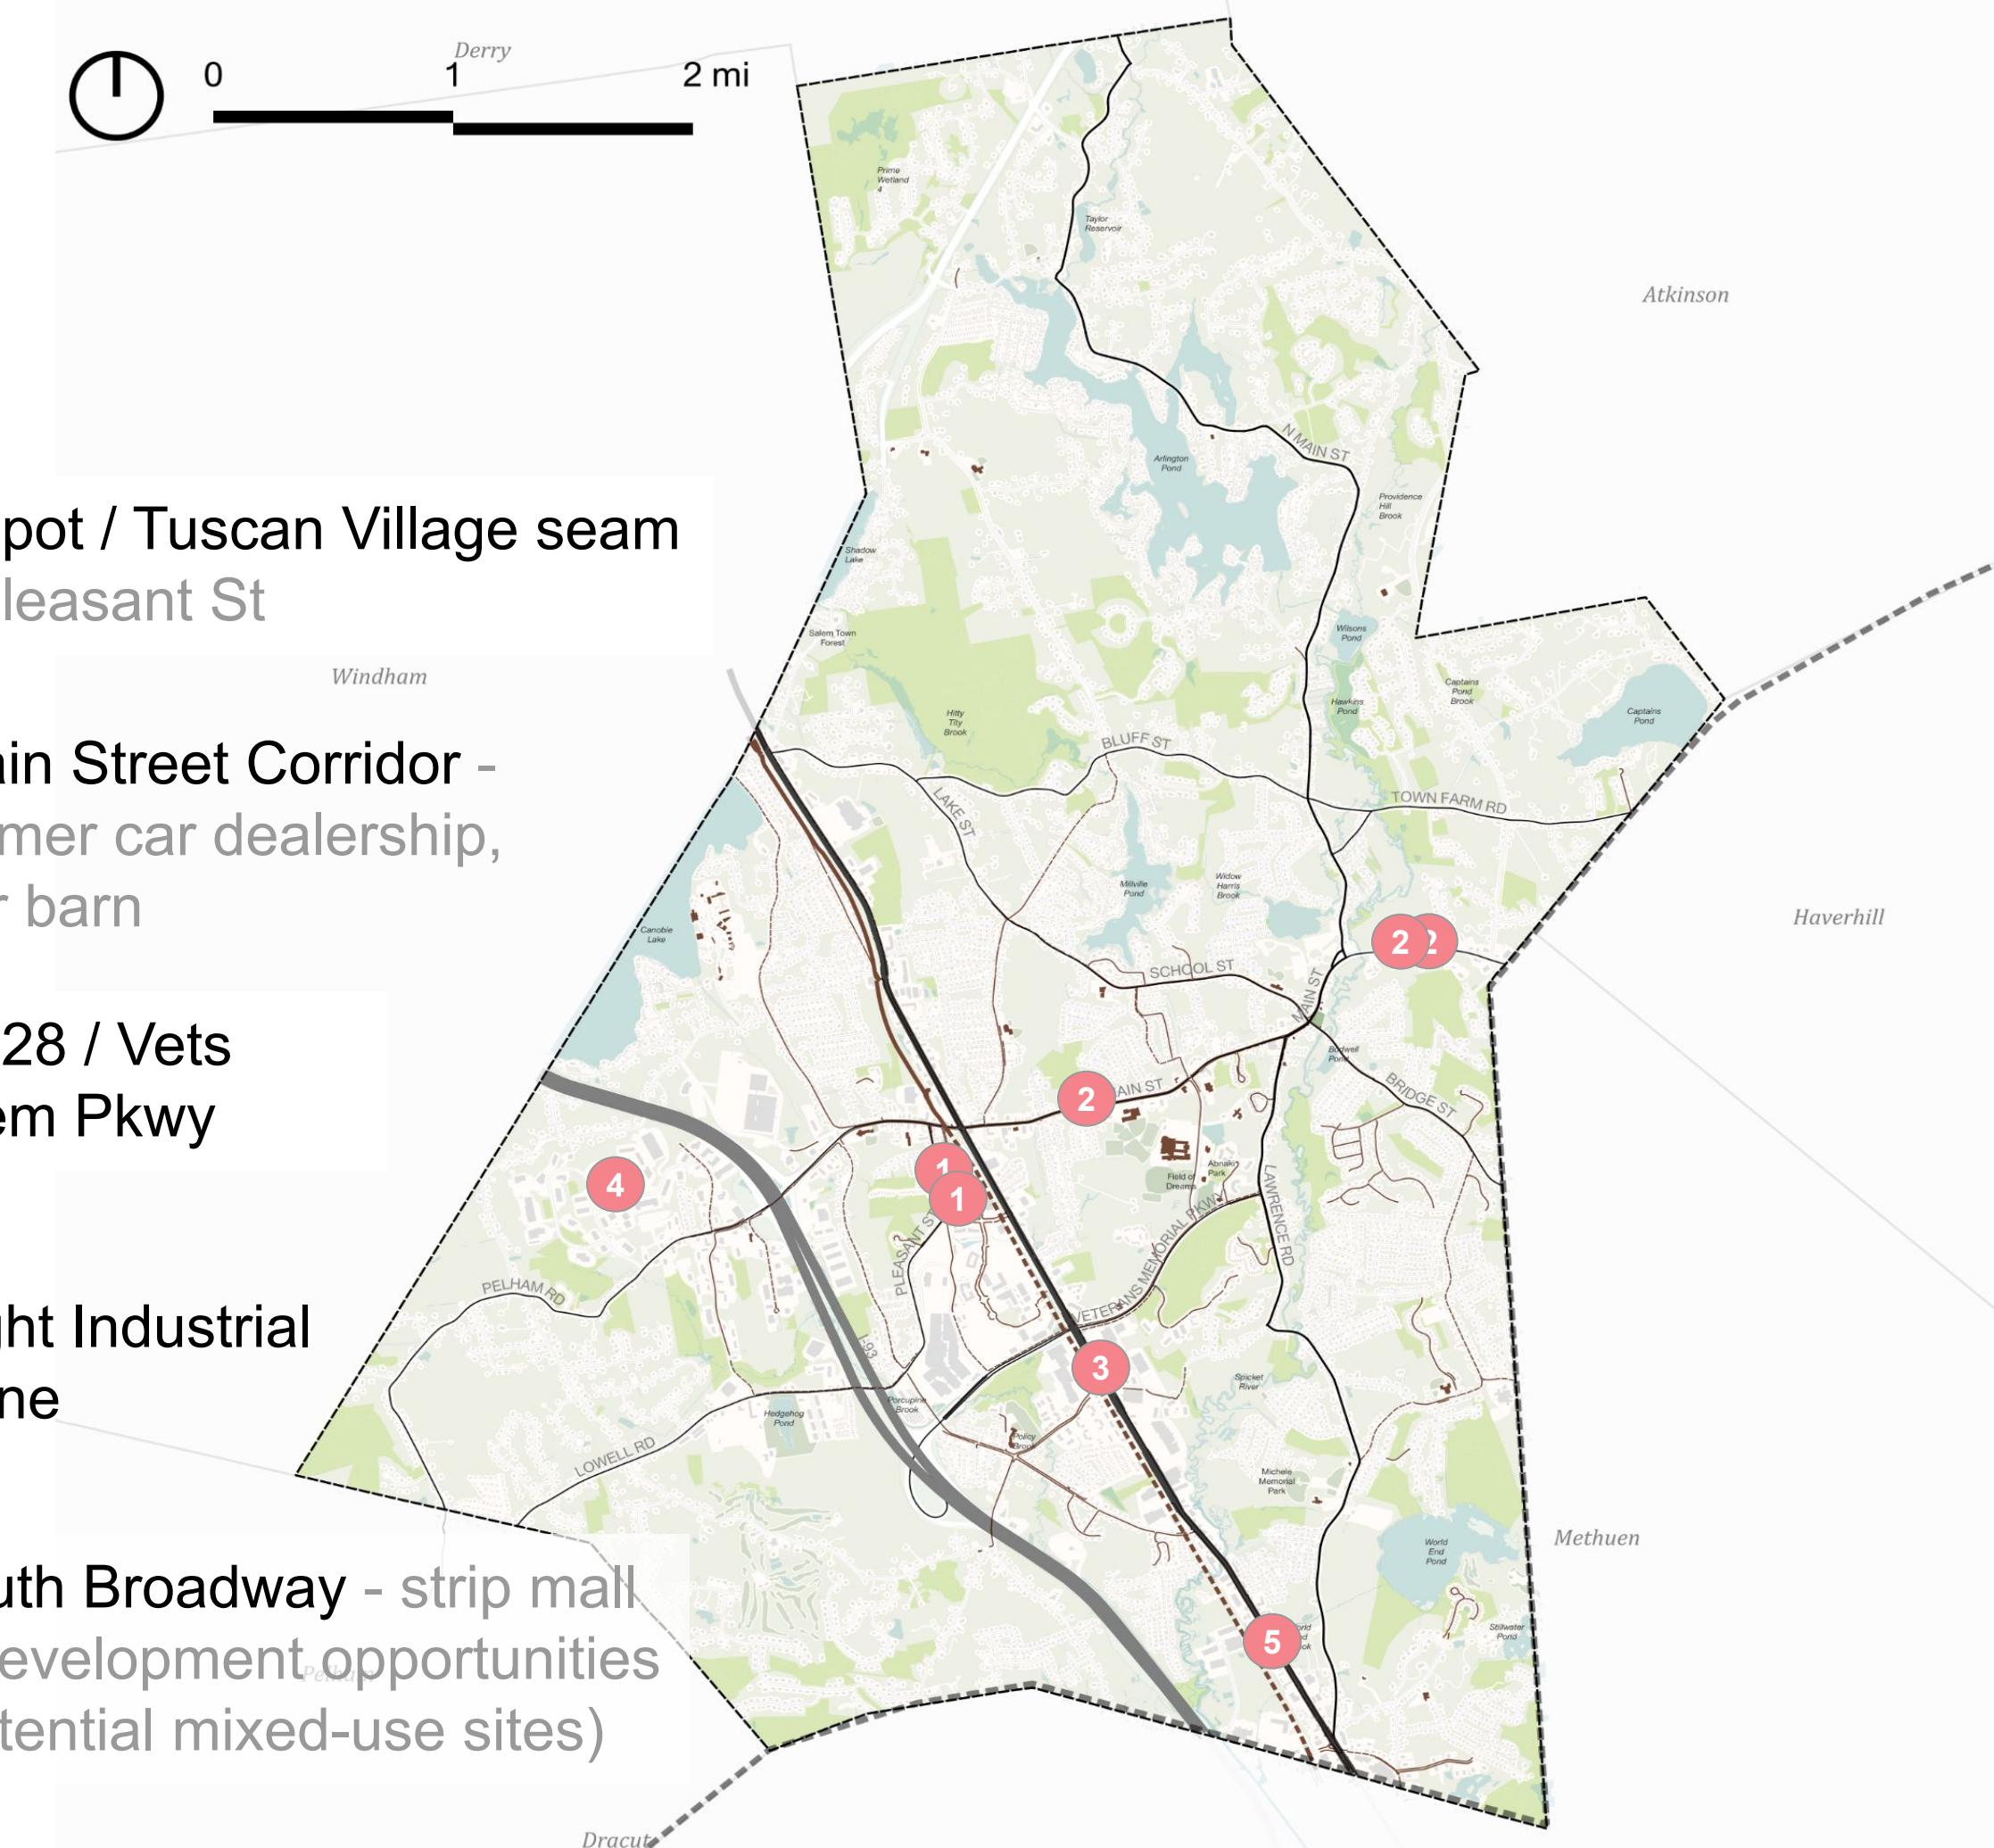

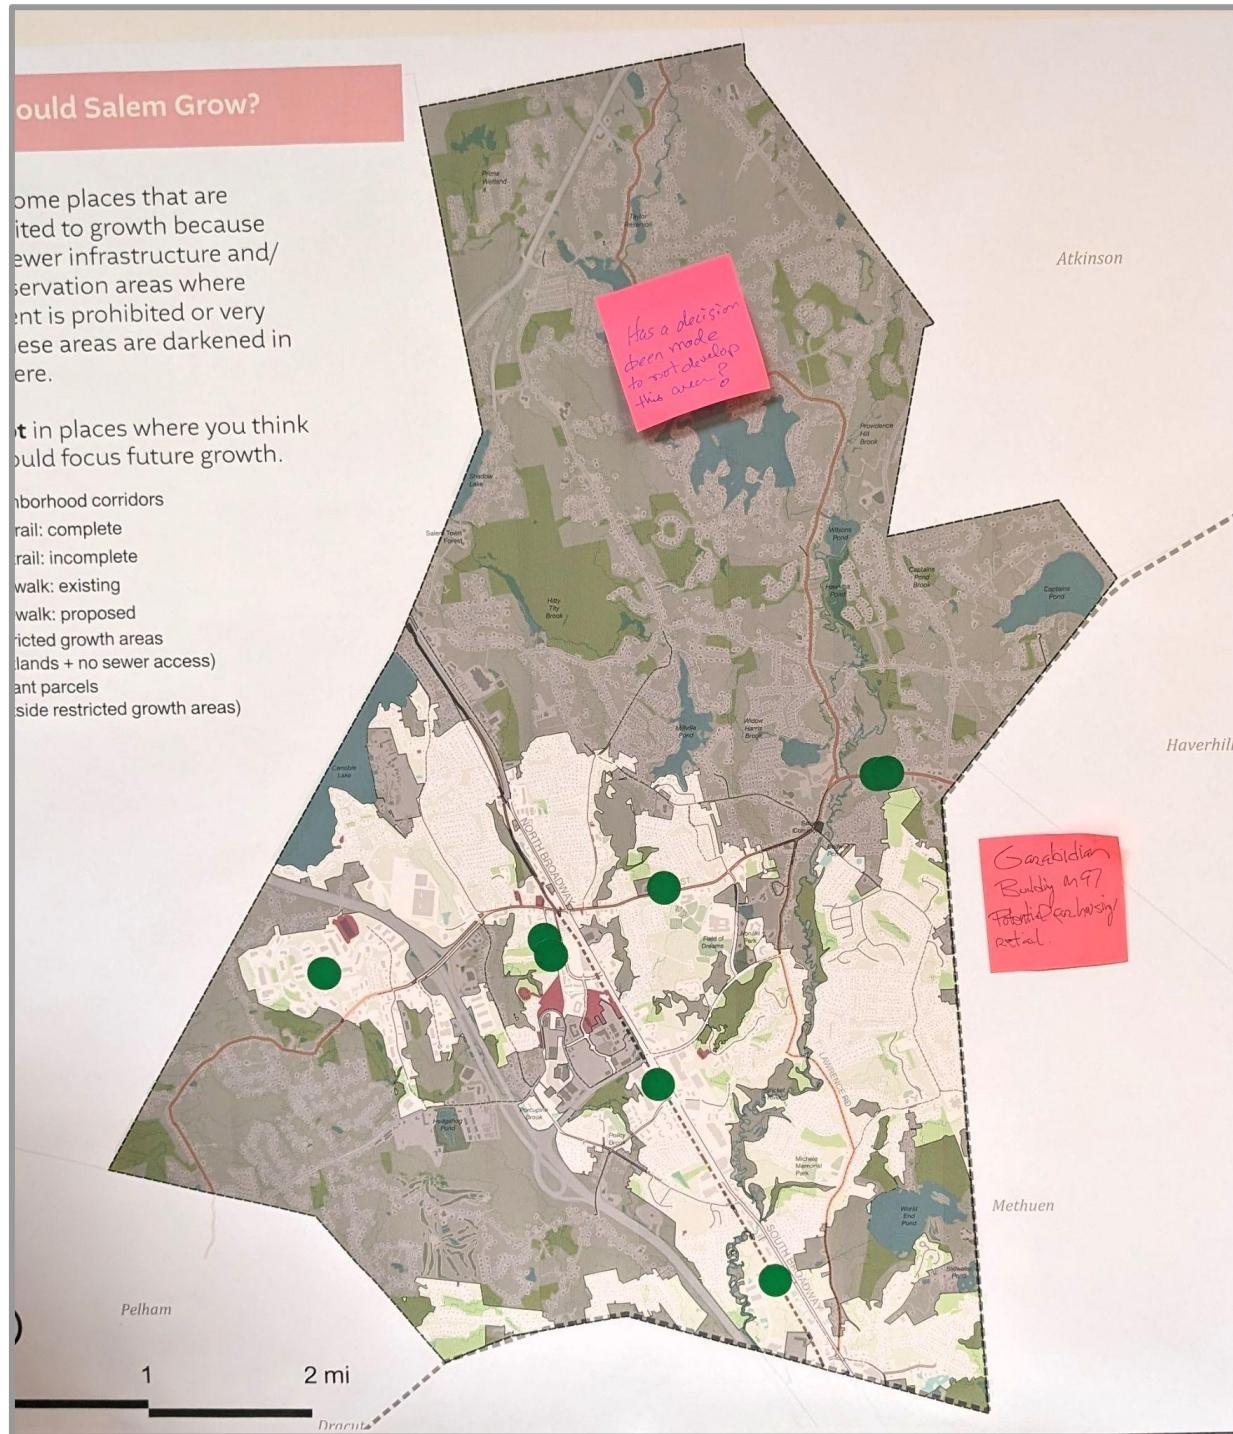

- 1 Cluster around Depot (Rt 28 & Millville St Intersections with Main St)
- 2 Main St (North of High School)
- 3 N. Main St (Historic Town Center)
- 4 Tuscan Village

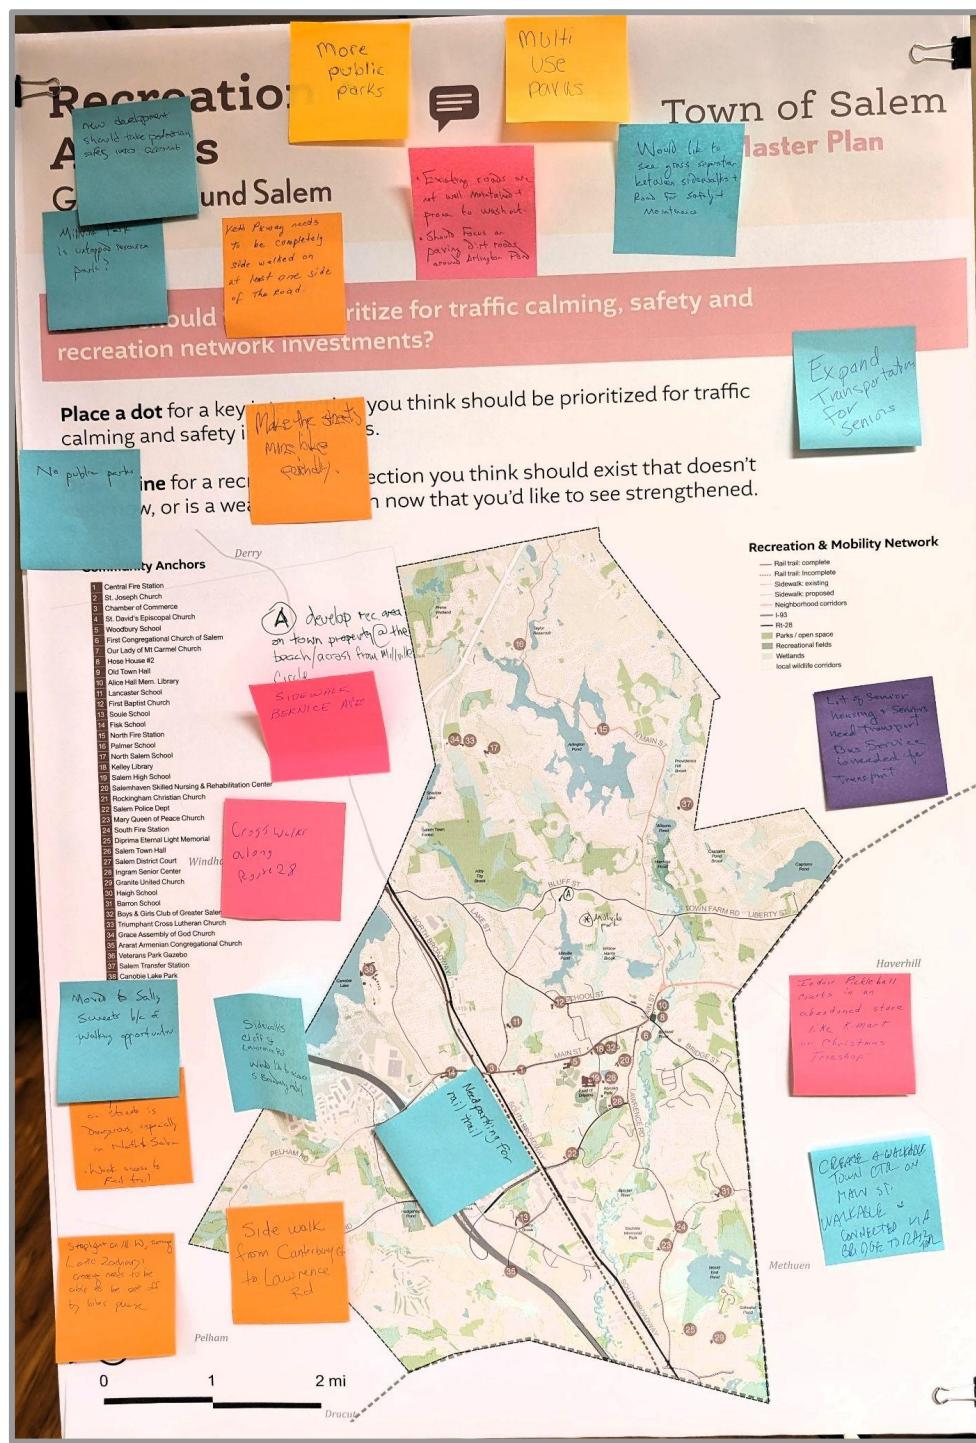

Map-Based Feedback

Where should Salem focus **Future Growth?**

Map-Based Feedback

Where should Salem focus on Road Safety & Recreation Networks?

— Sidewalks & Crosswalks

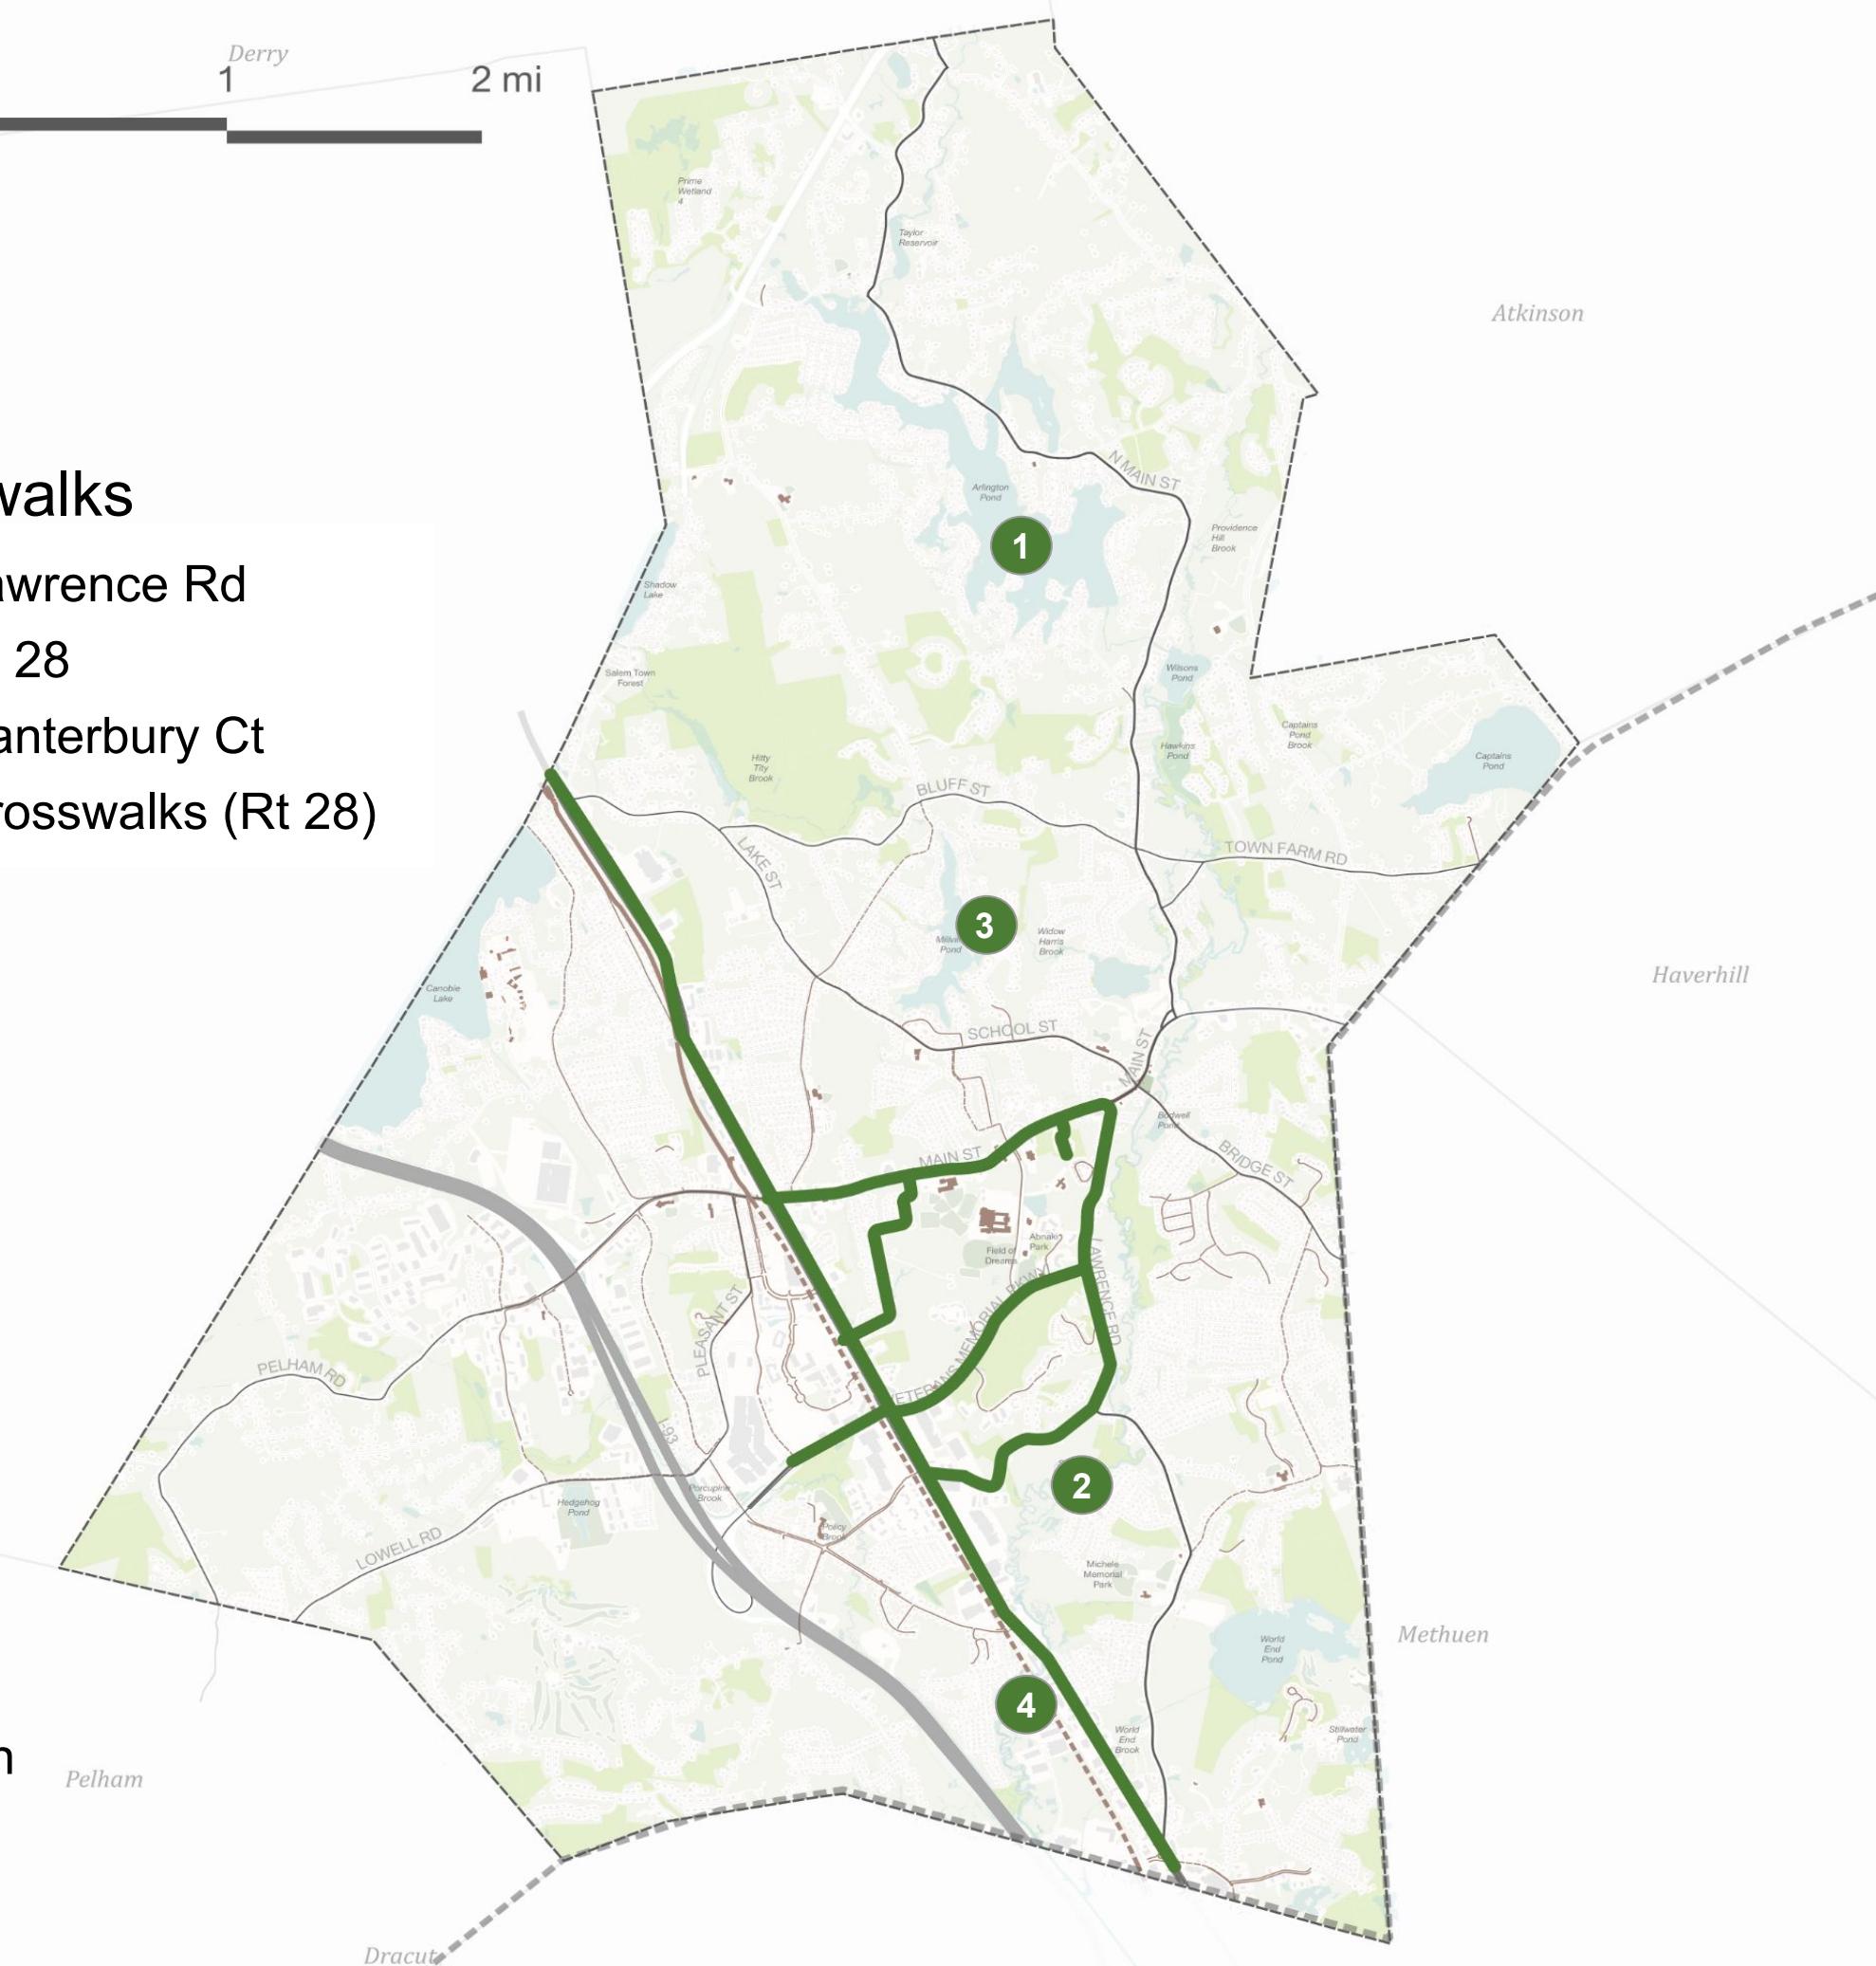

- Vets Parkway
- Lawrence Rd
- Bernice Ave
- Rt 28
- tree/grass buffer
- Canterbury Ct
- Cluff Rd
- Crosswalks (Rt 28)

↔ Recreation Access

- ↔ Parking
- ↔ Rail Trail
- ↔ Road Paving
- ↔ Bike infrastructure
- ↔ Public bus service (for Seniors)

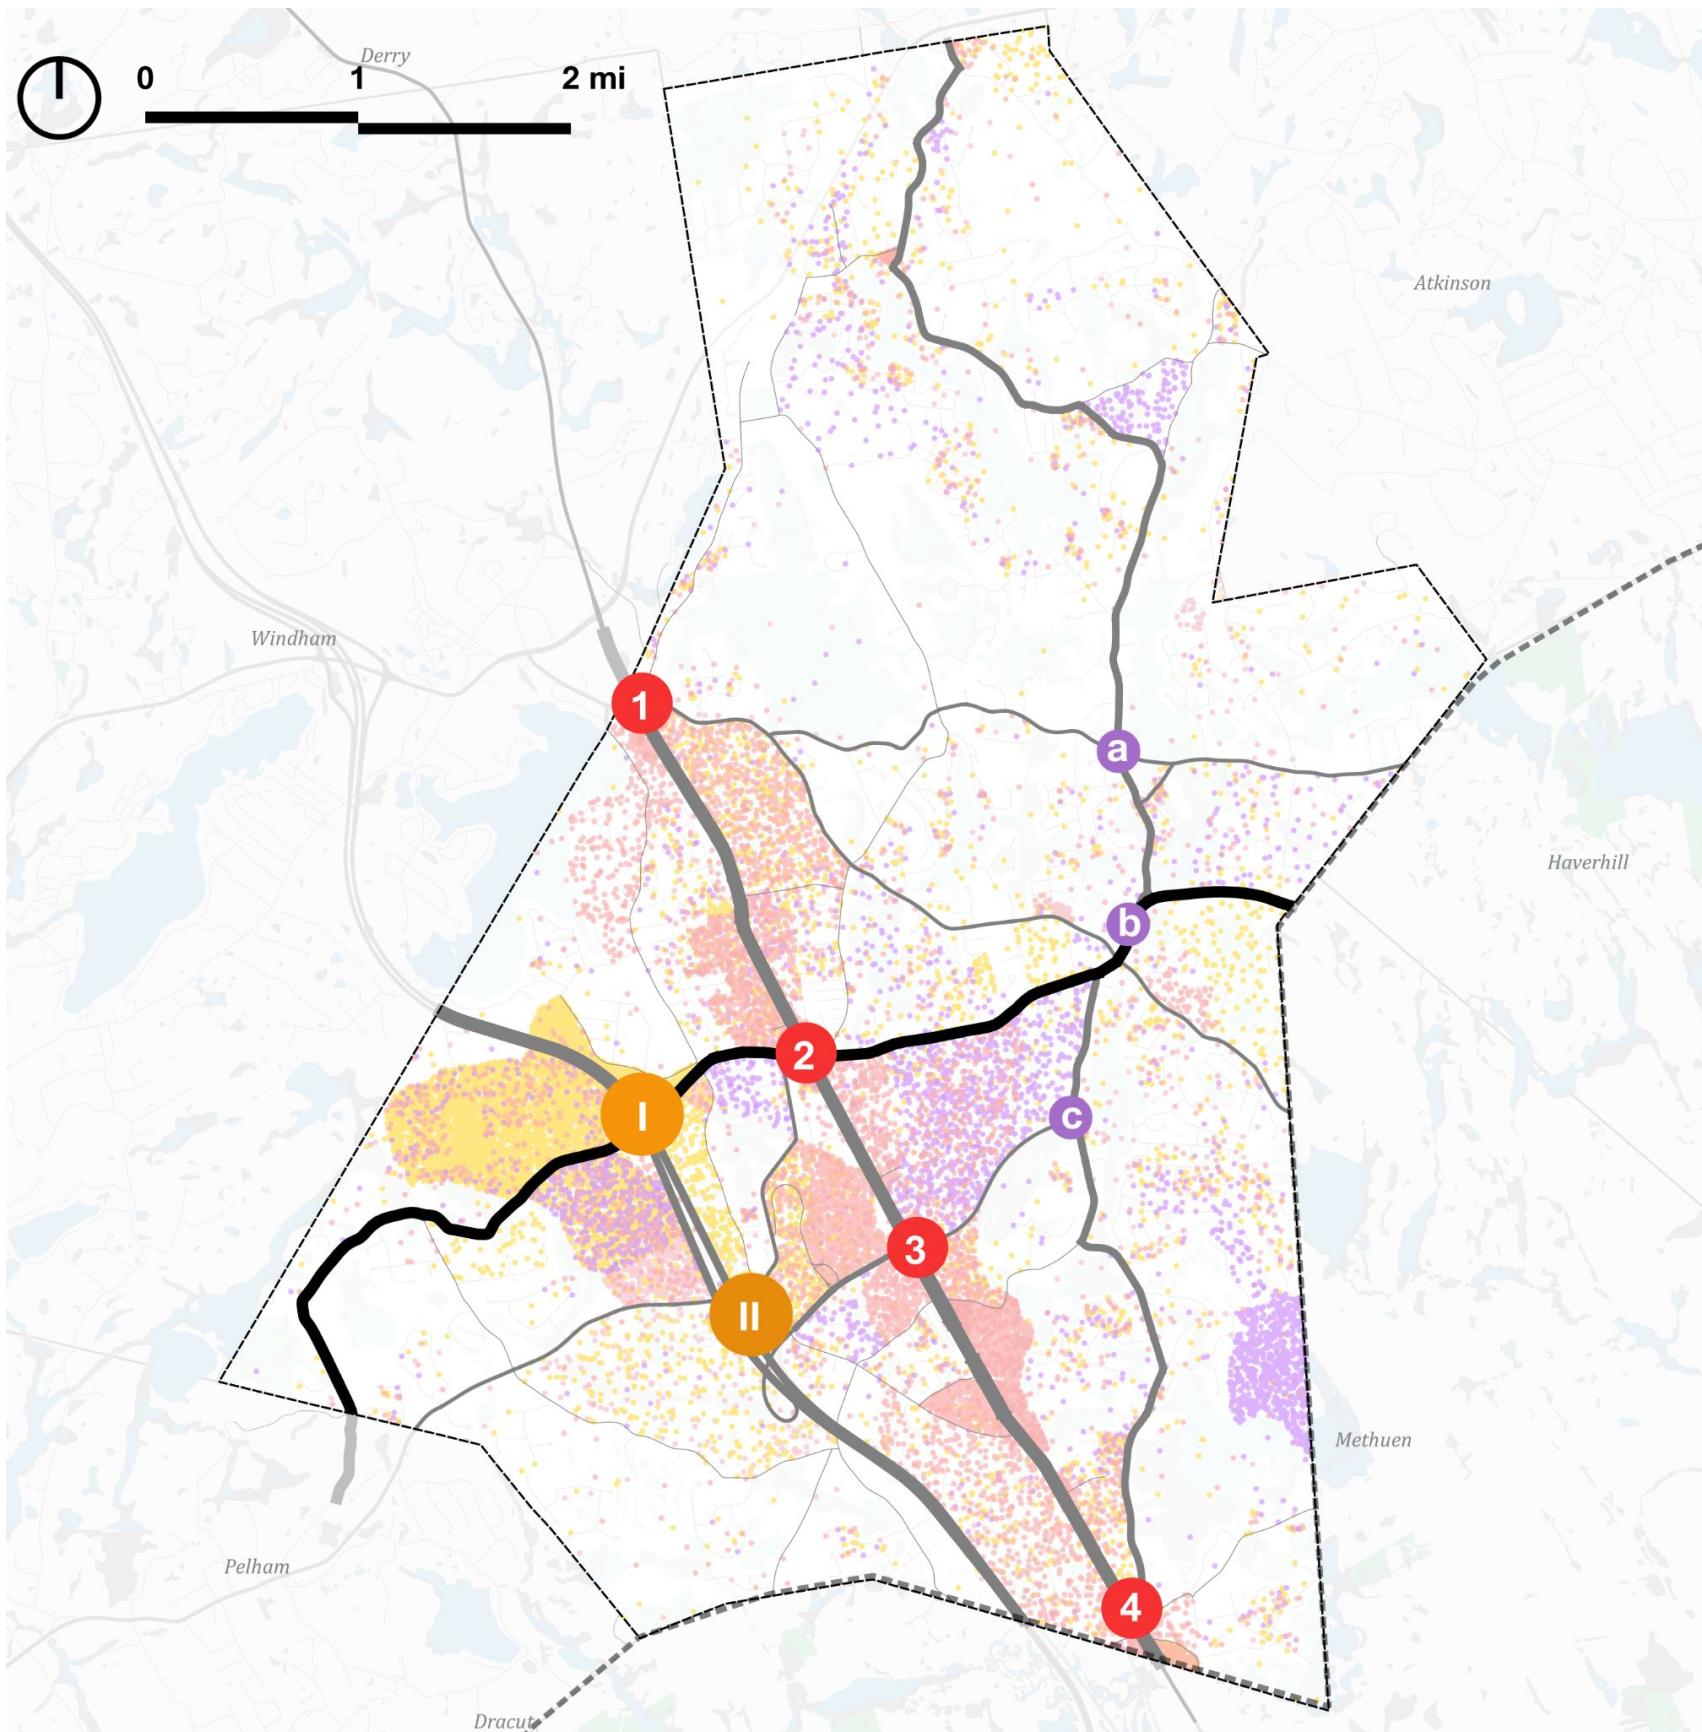

● Park Enhancements

1. Arlington Pond
2. Spicket River Kayak Access
3. Millville Park Recreation
4. Former Wastewater Treatment Plant

Draft Plan Framework

Early Insights: 3 Parallel Corridors

Main Street is the central connector:

I-93

Rt-28

Lawrence / N Main

Main St /
Pelham Rd

Rockingham
Park Blvd

Lake St

Main St

Veterans
Memorial Pkwy

Lawrence Road

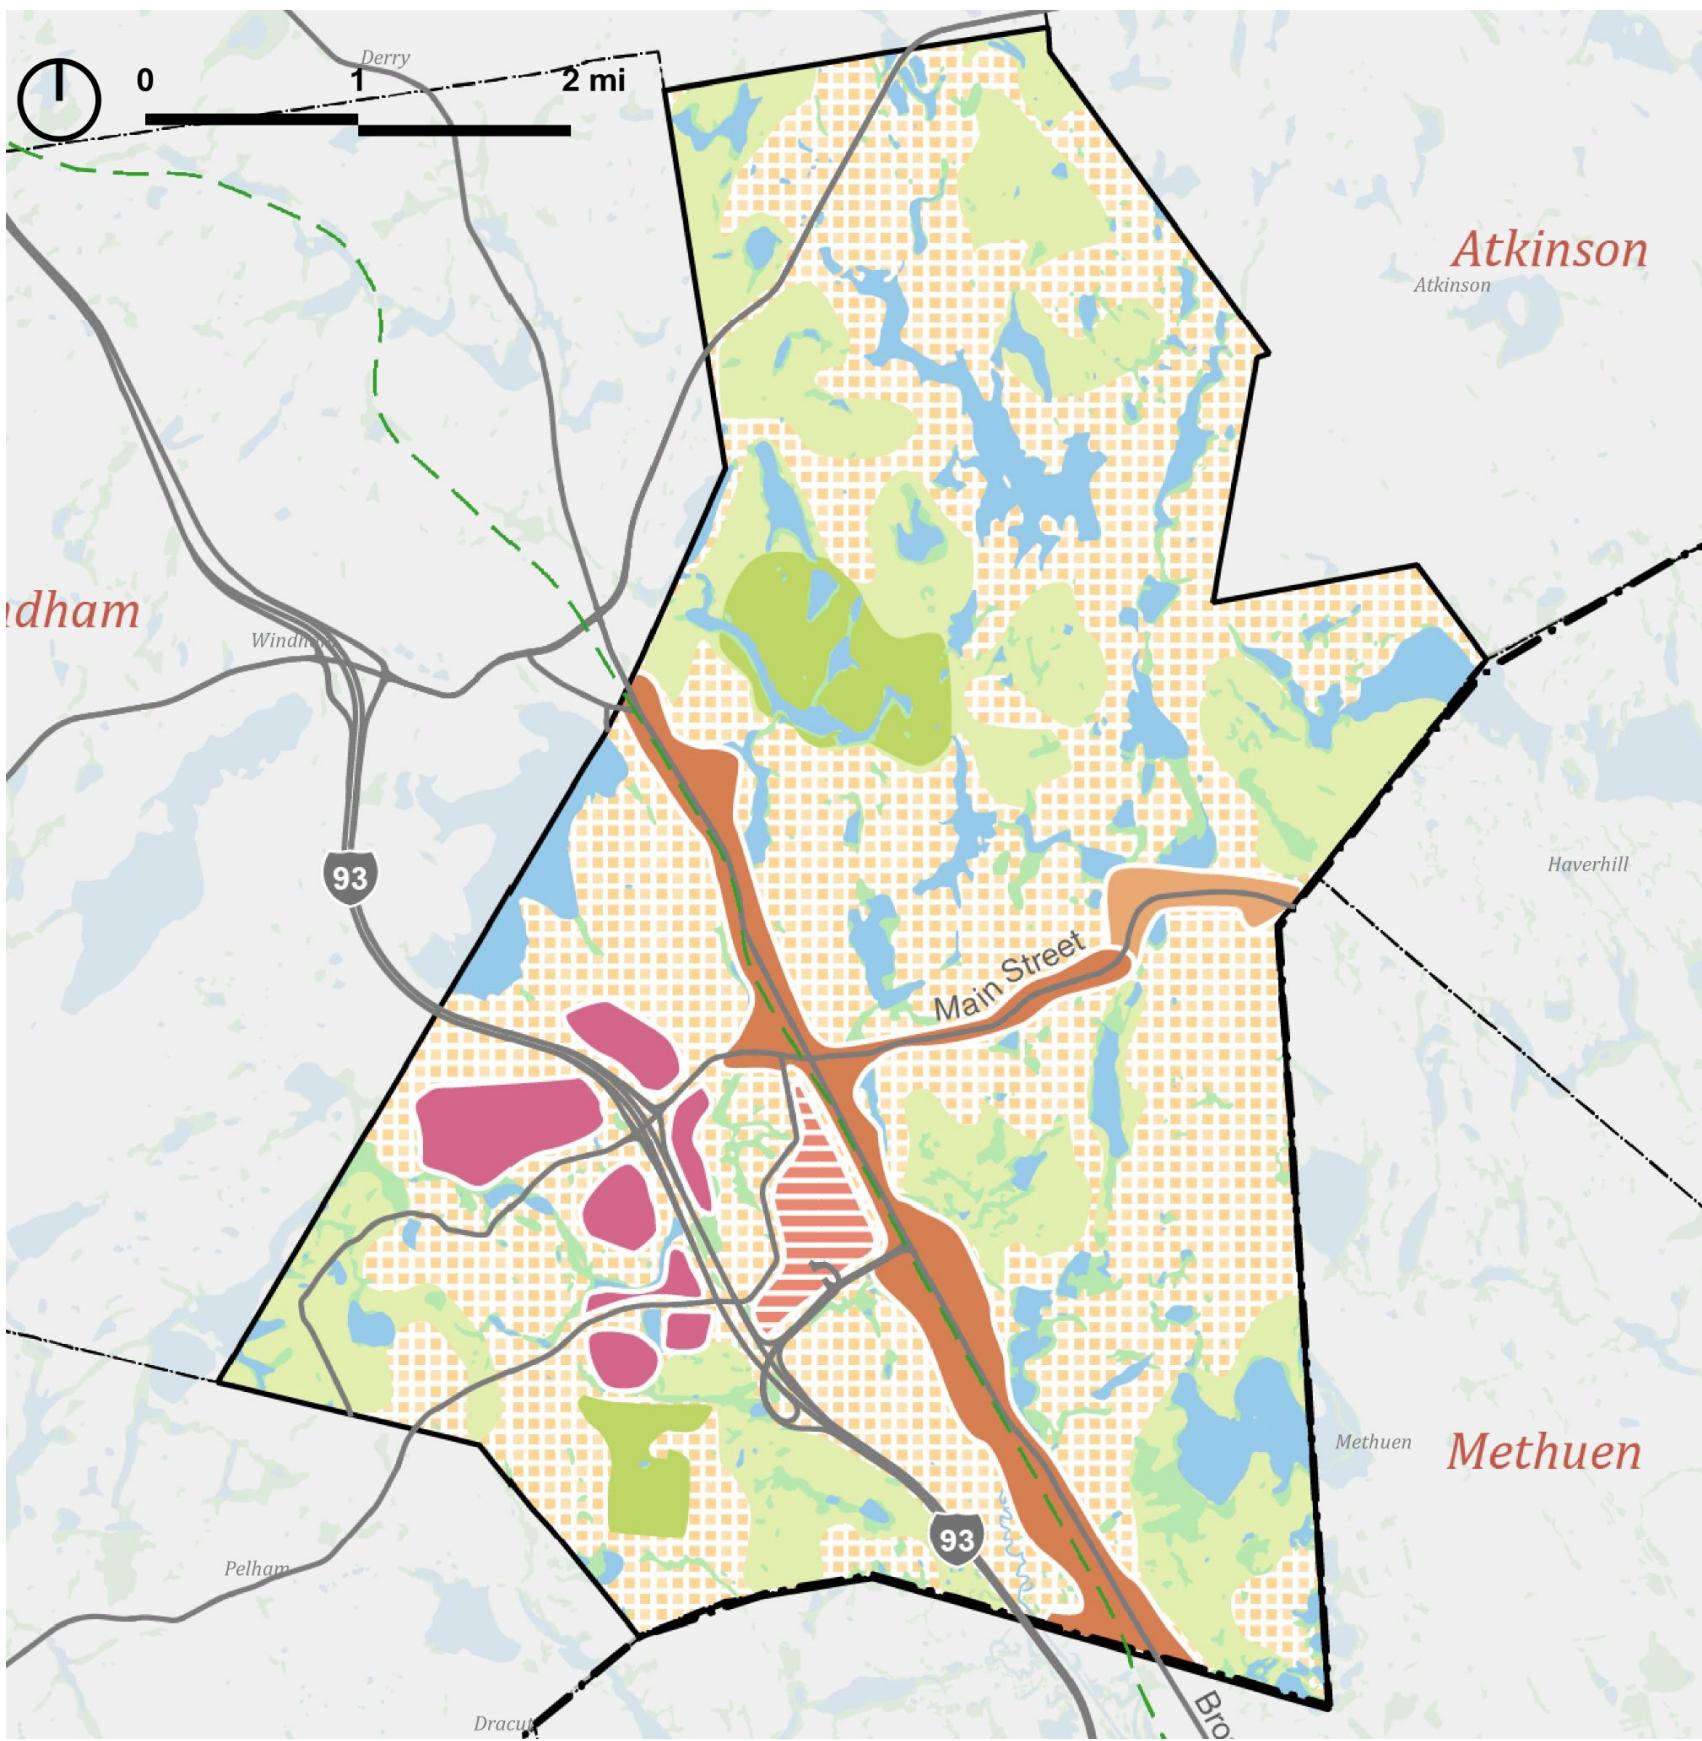

Bluff St

Main St

Veterans
Memorial Pkwy

Early Insights: Mental Map

This map diagrams existing land use and development patterns of Salem.

A couple things stand out:

- 1. Major Commercial and Mixed-Use Corridors**
 - Route 28 corridor
 - Main Street
- 2. Commercial/Industrial Areas**
 - Concentrated between Route 28 & I-93
- 3. Residential Fabric**
 - Spectrum of suburban to rural

- Mixed Use Center
- Commercial Corridor
- Larger-Scale Industrial/Commercial Hubs
- Small-Scale Commercial Hubs
- Residential Areas
- Open Space + Recreation
- Wooded Area

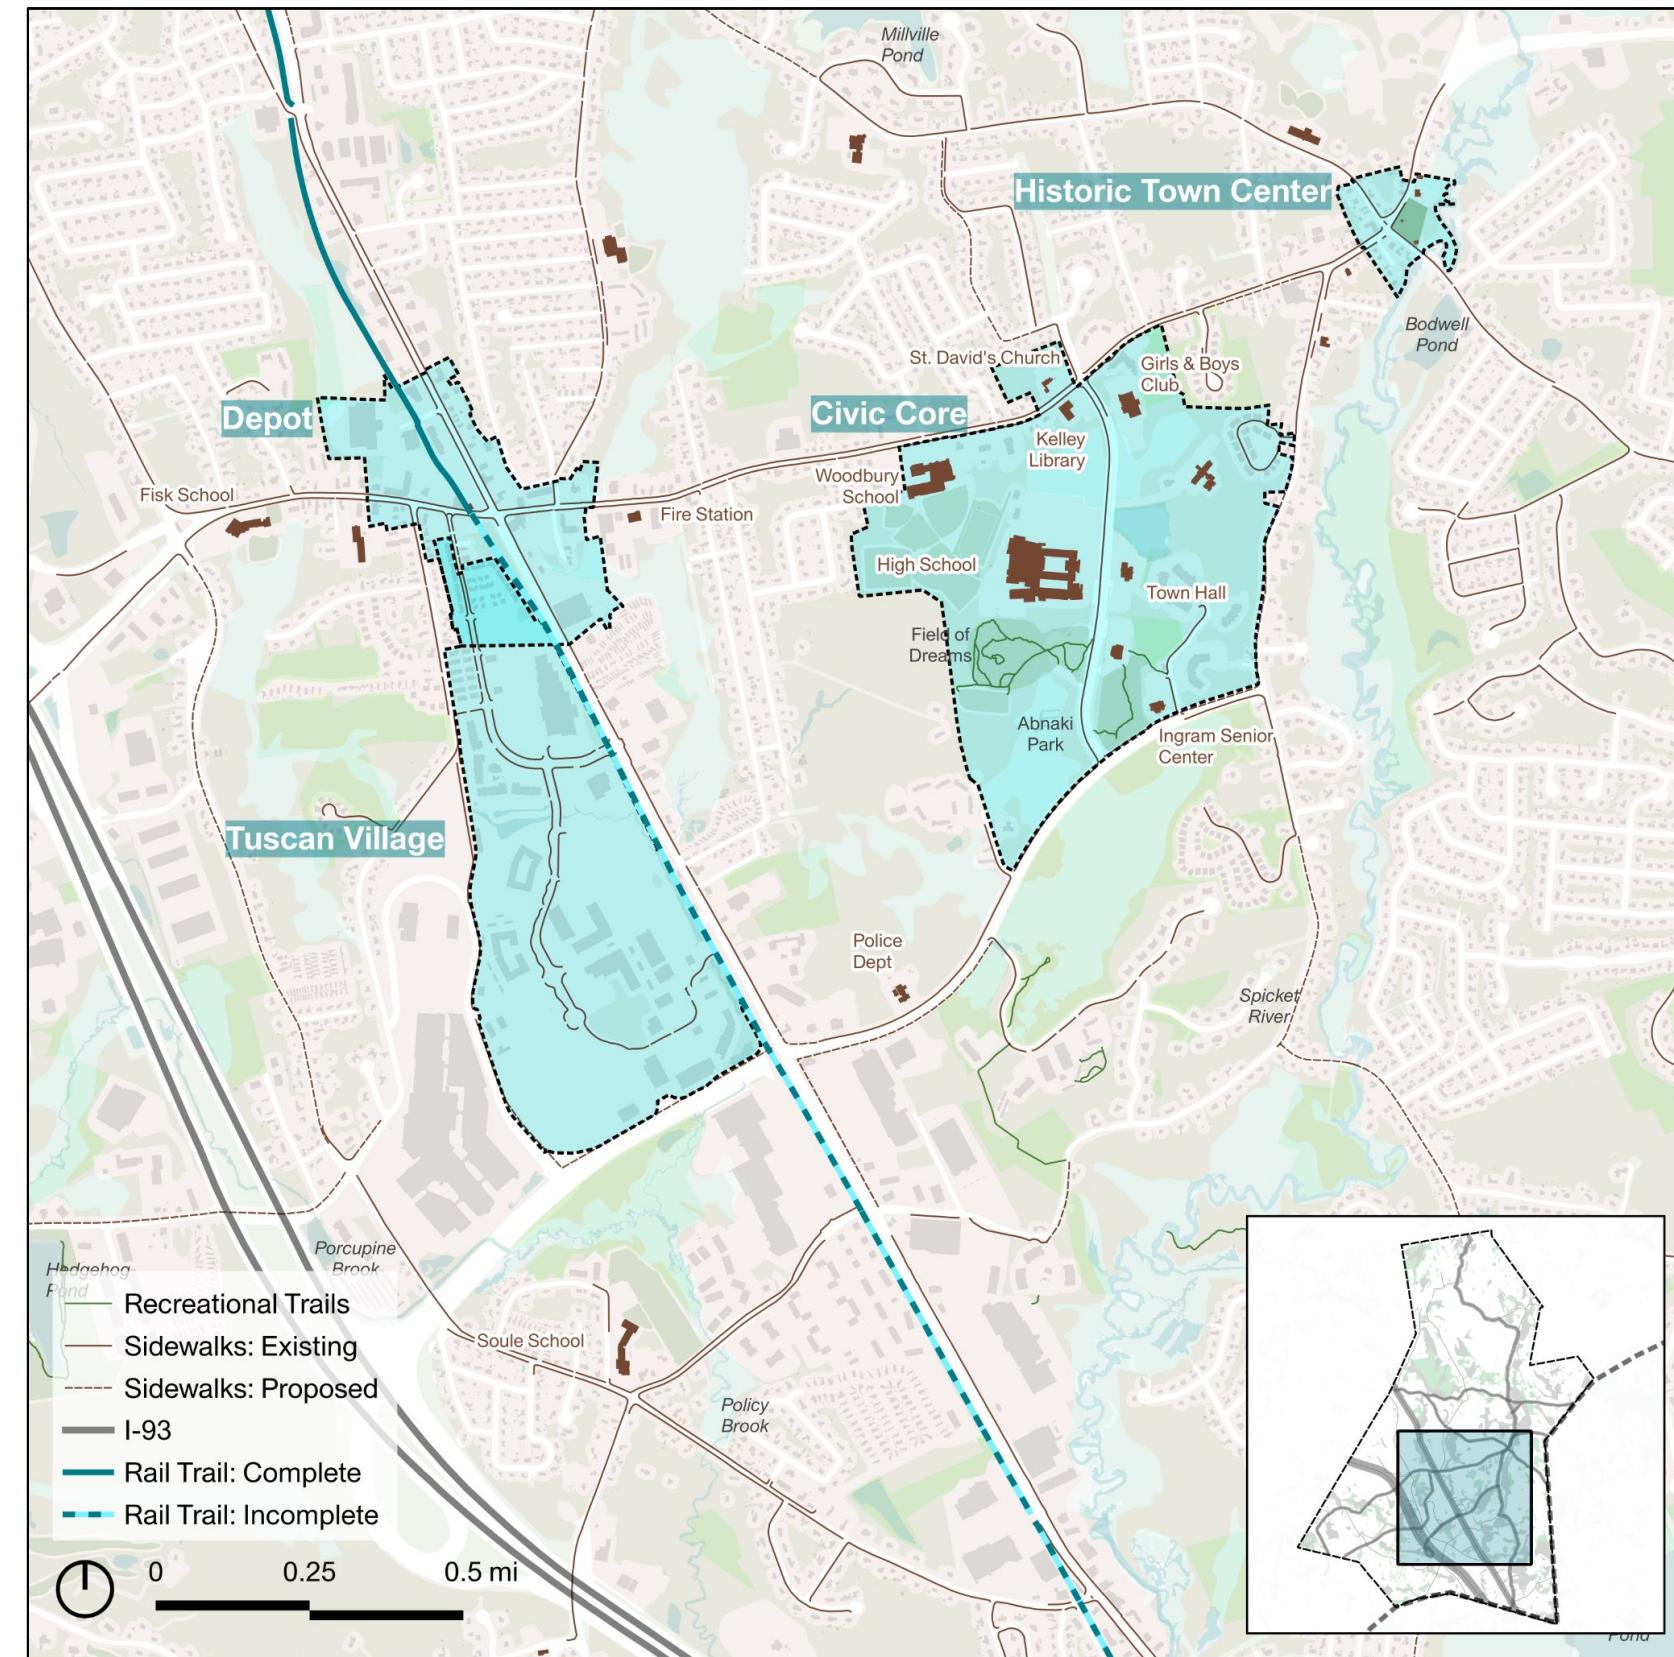

Pressures & Opportunities in Salem

The gift and curse of a “hot market” for development

Salem is unique in the region in terms of both the diversity and volume of commercial and mixed-use development. This supports jobs and the tax base.

Recently, with Tuscan Village, the pace and intensity of development has picked up and is attracting more out-of-town interest.

Without a clear vision and policies from the Town about where development should occur, developers will seek out any larger underutilized parcel for redevelopment.

The importance of harnessing development pressure

In order to benefit from the development, Salem has to guide development to the places that are most aligned with community goals and initiatives.

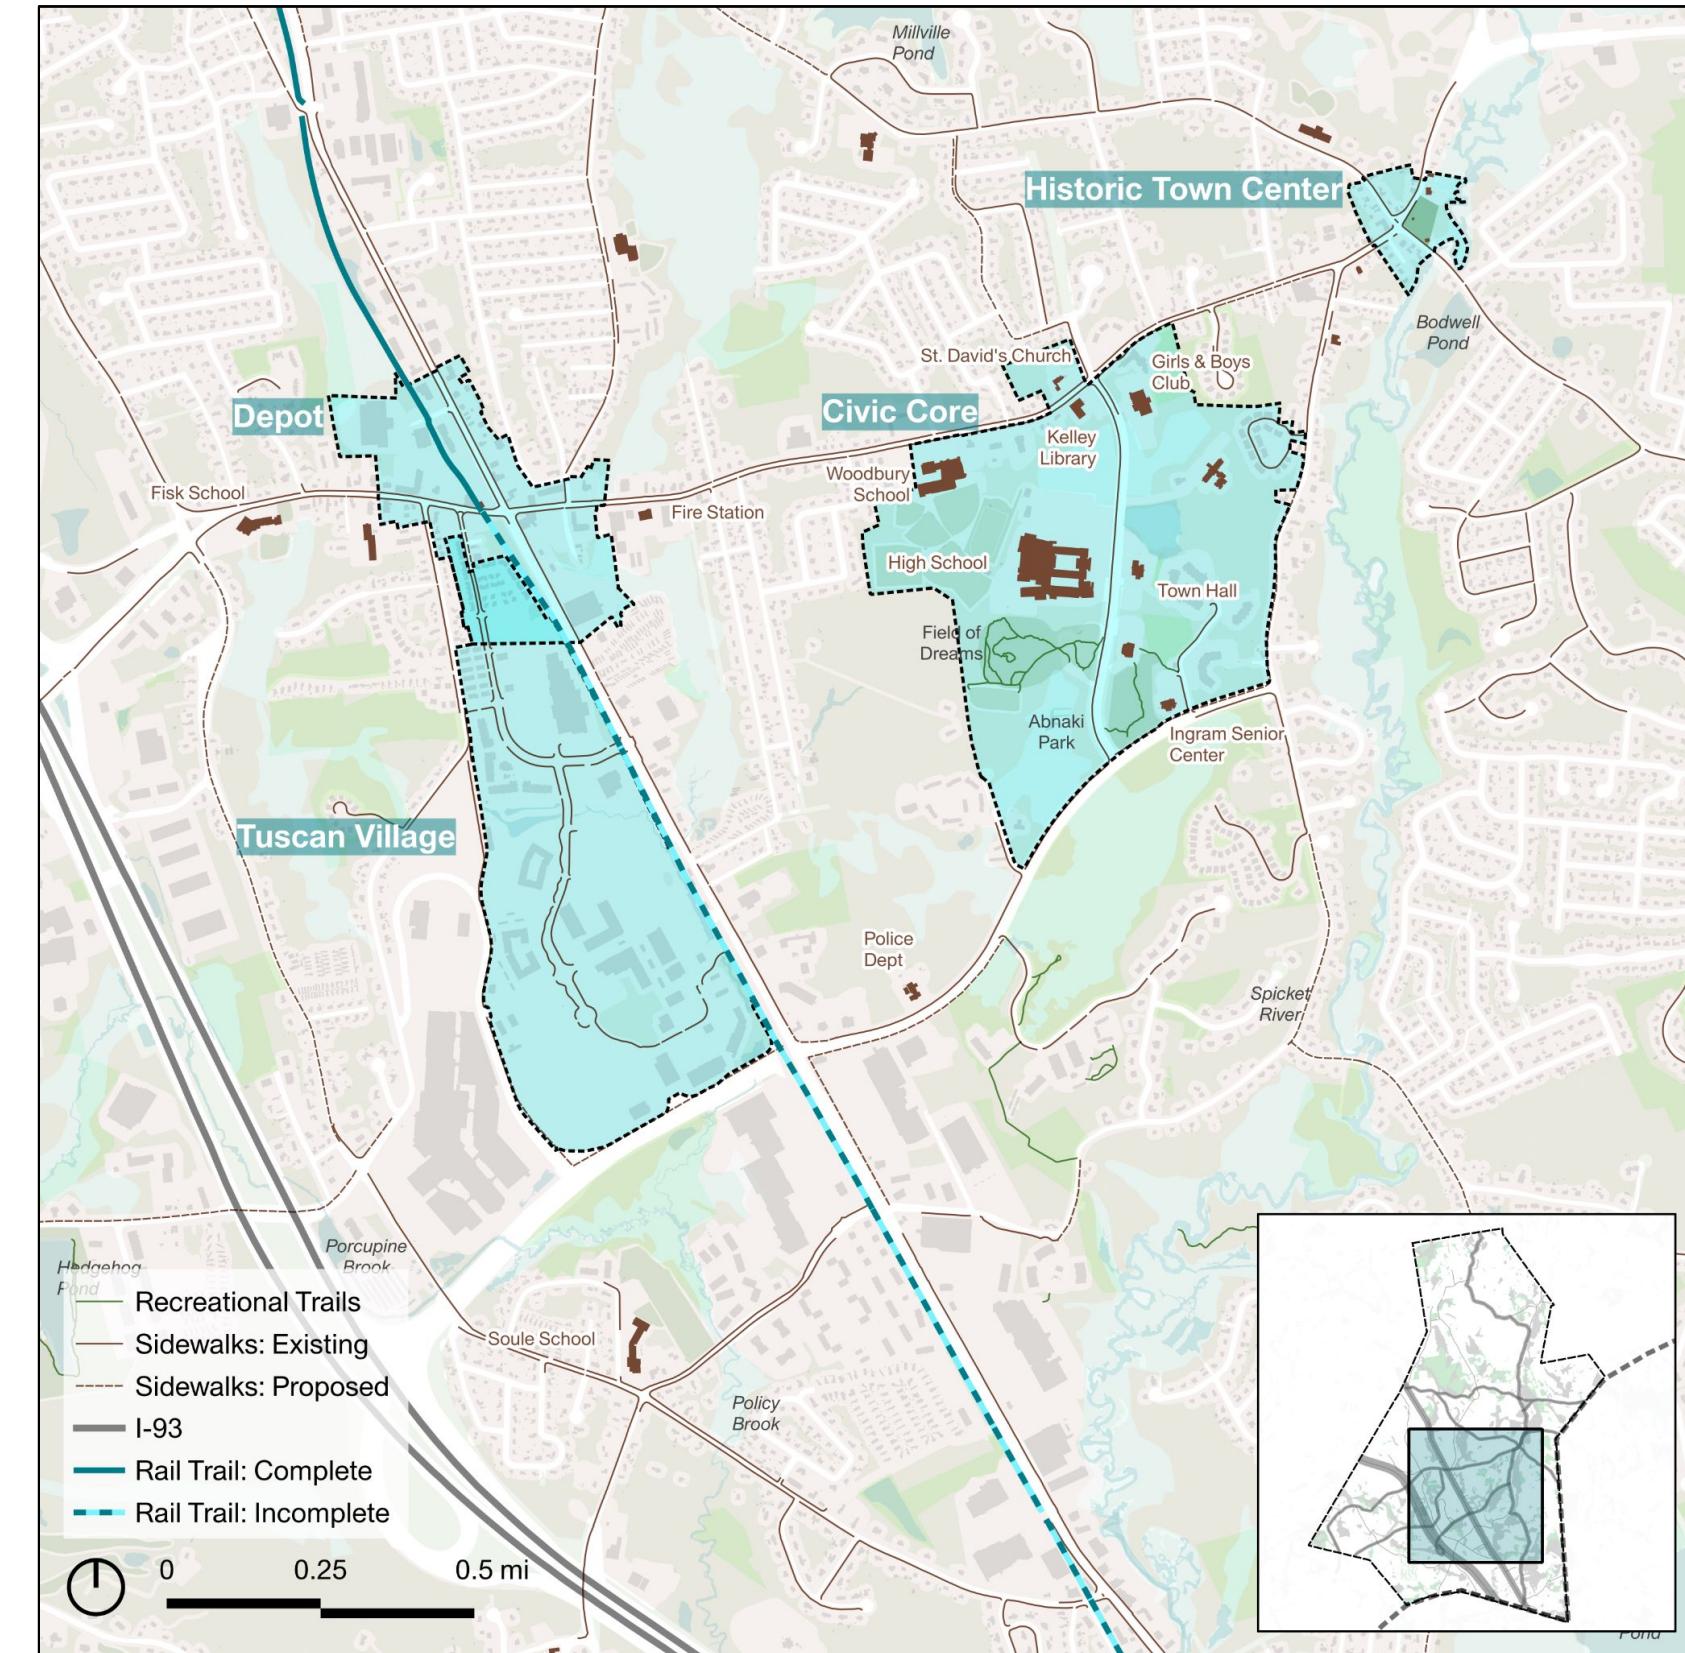

For Salem, the best strategy to harness development for local benefit is to encourage thoughtful, compact development in the Town Center and along the RT-28 corridor. This reinforces existing infrastructure and amenities, while allowing rural development patterns and conservation to continue elsewhere in the town.

Plan Framework: 4 Pillars

MIXED USE CORE

Focus and contain higher density mixed use in the core, and deter elsewhere

Big Move

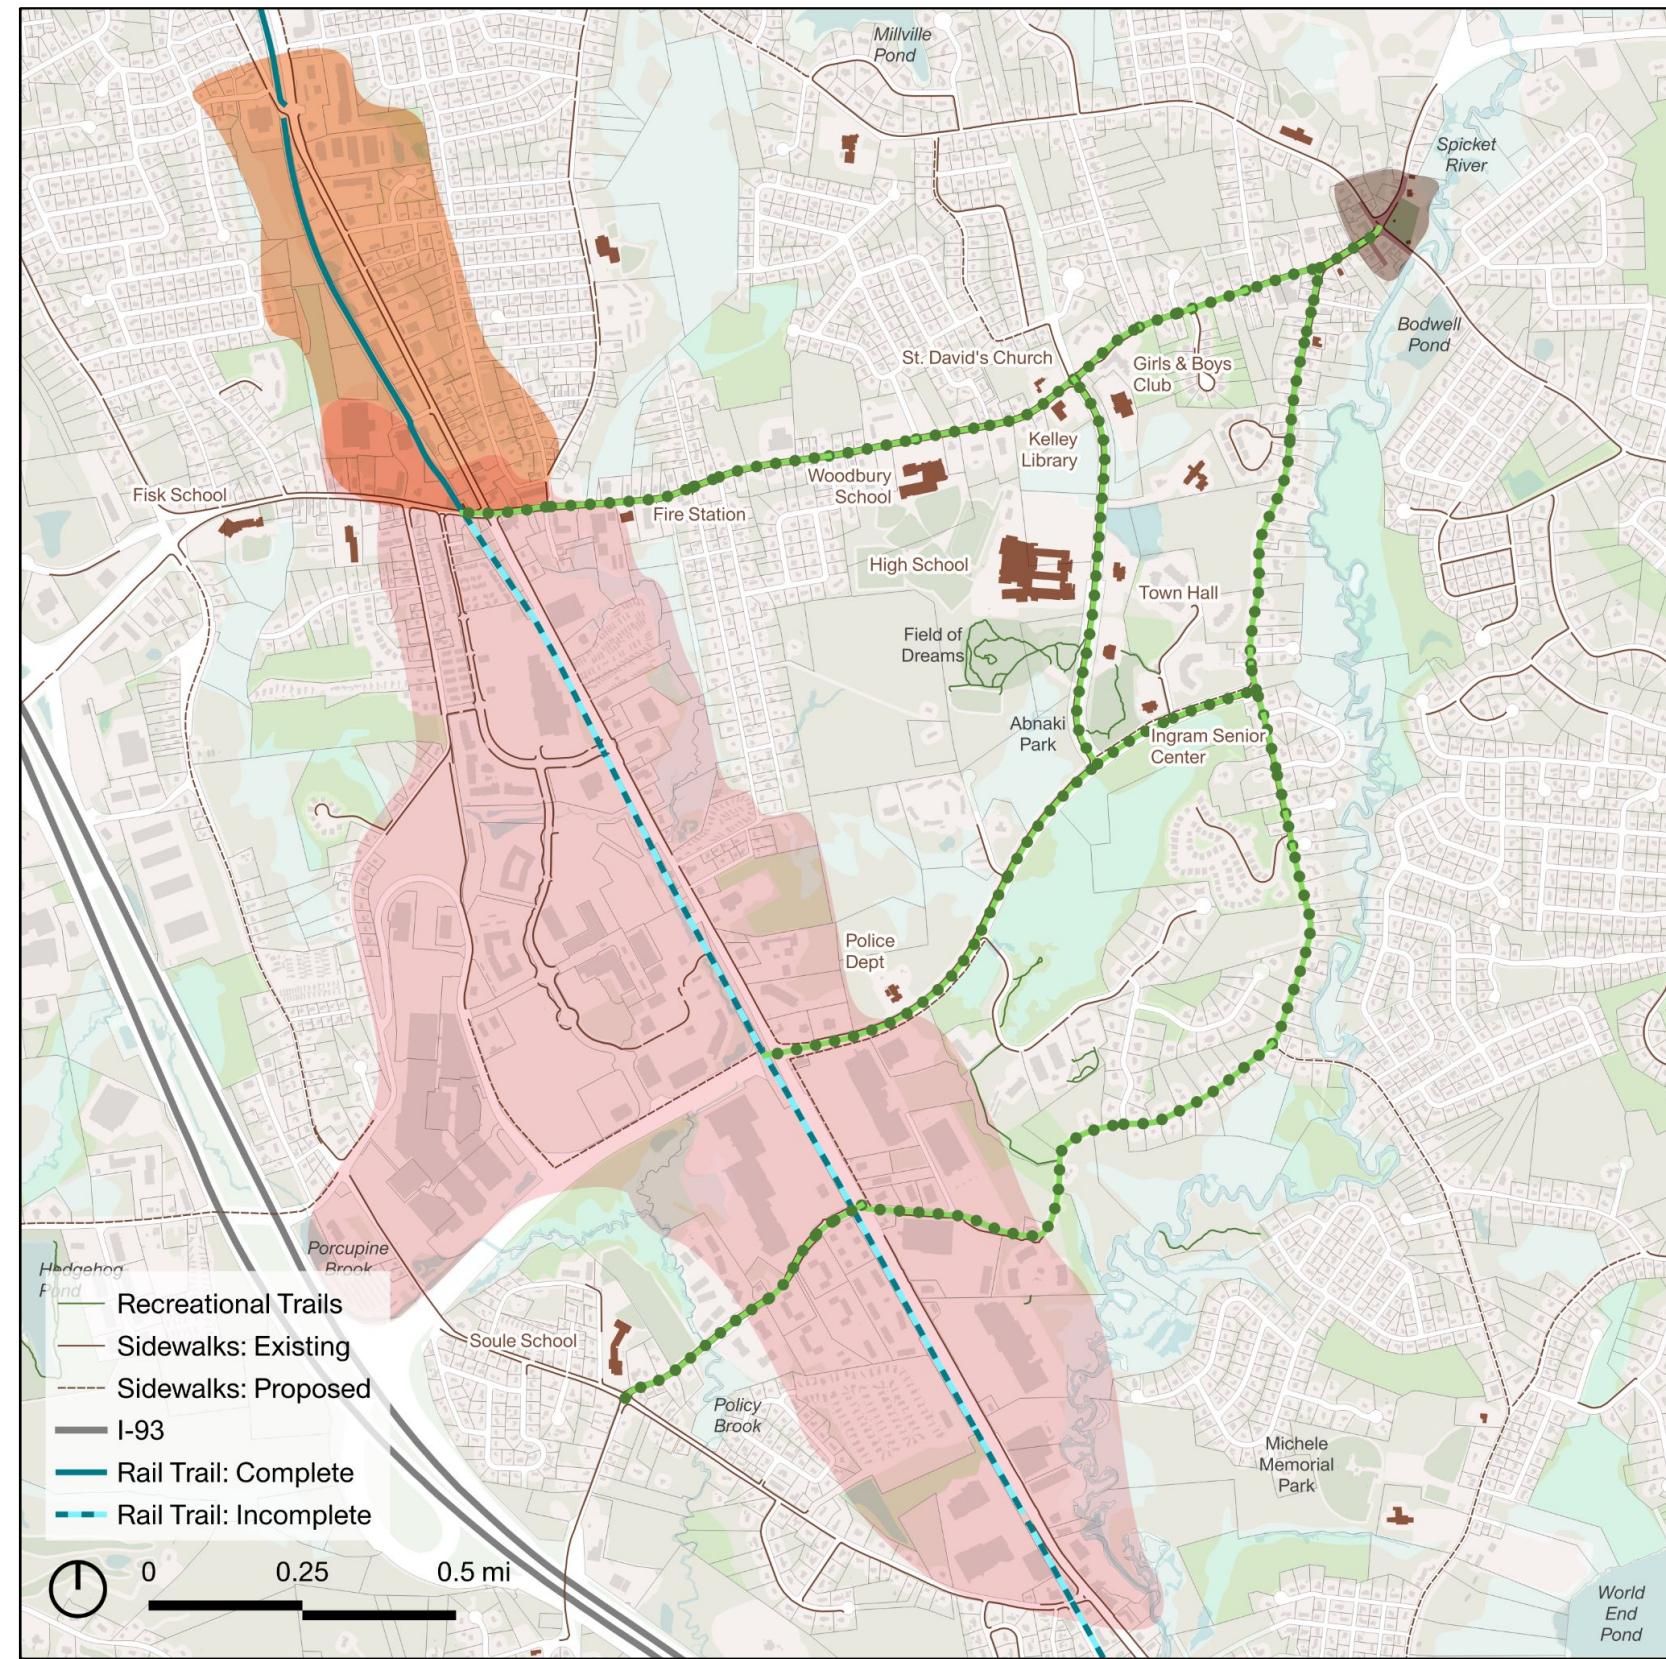

Update zoning to encourage walkable mixed use development along RT-28 between Depot & Tuscan Village

MISSING MIDDLE EDGES

Encourage quality housing aligned with residents' budgets and family sizes

Big Move

Update zoning to encourage appropriately scaled multifamily housing options along RT-28 north of Depot

GATHERING SPACES

Invest in beautification and infrastructure to reinforce gathering spaces

Big Move

Activate Historic Town Center with traffic calming & adaptive reuse

TOWN CONNECTORS

Connect key assets and gathering places with safe and complete streets

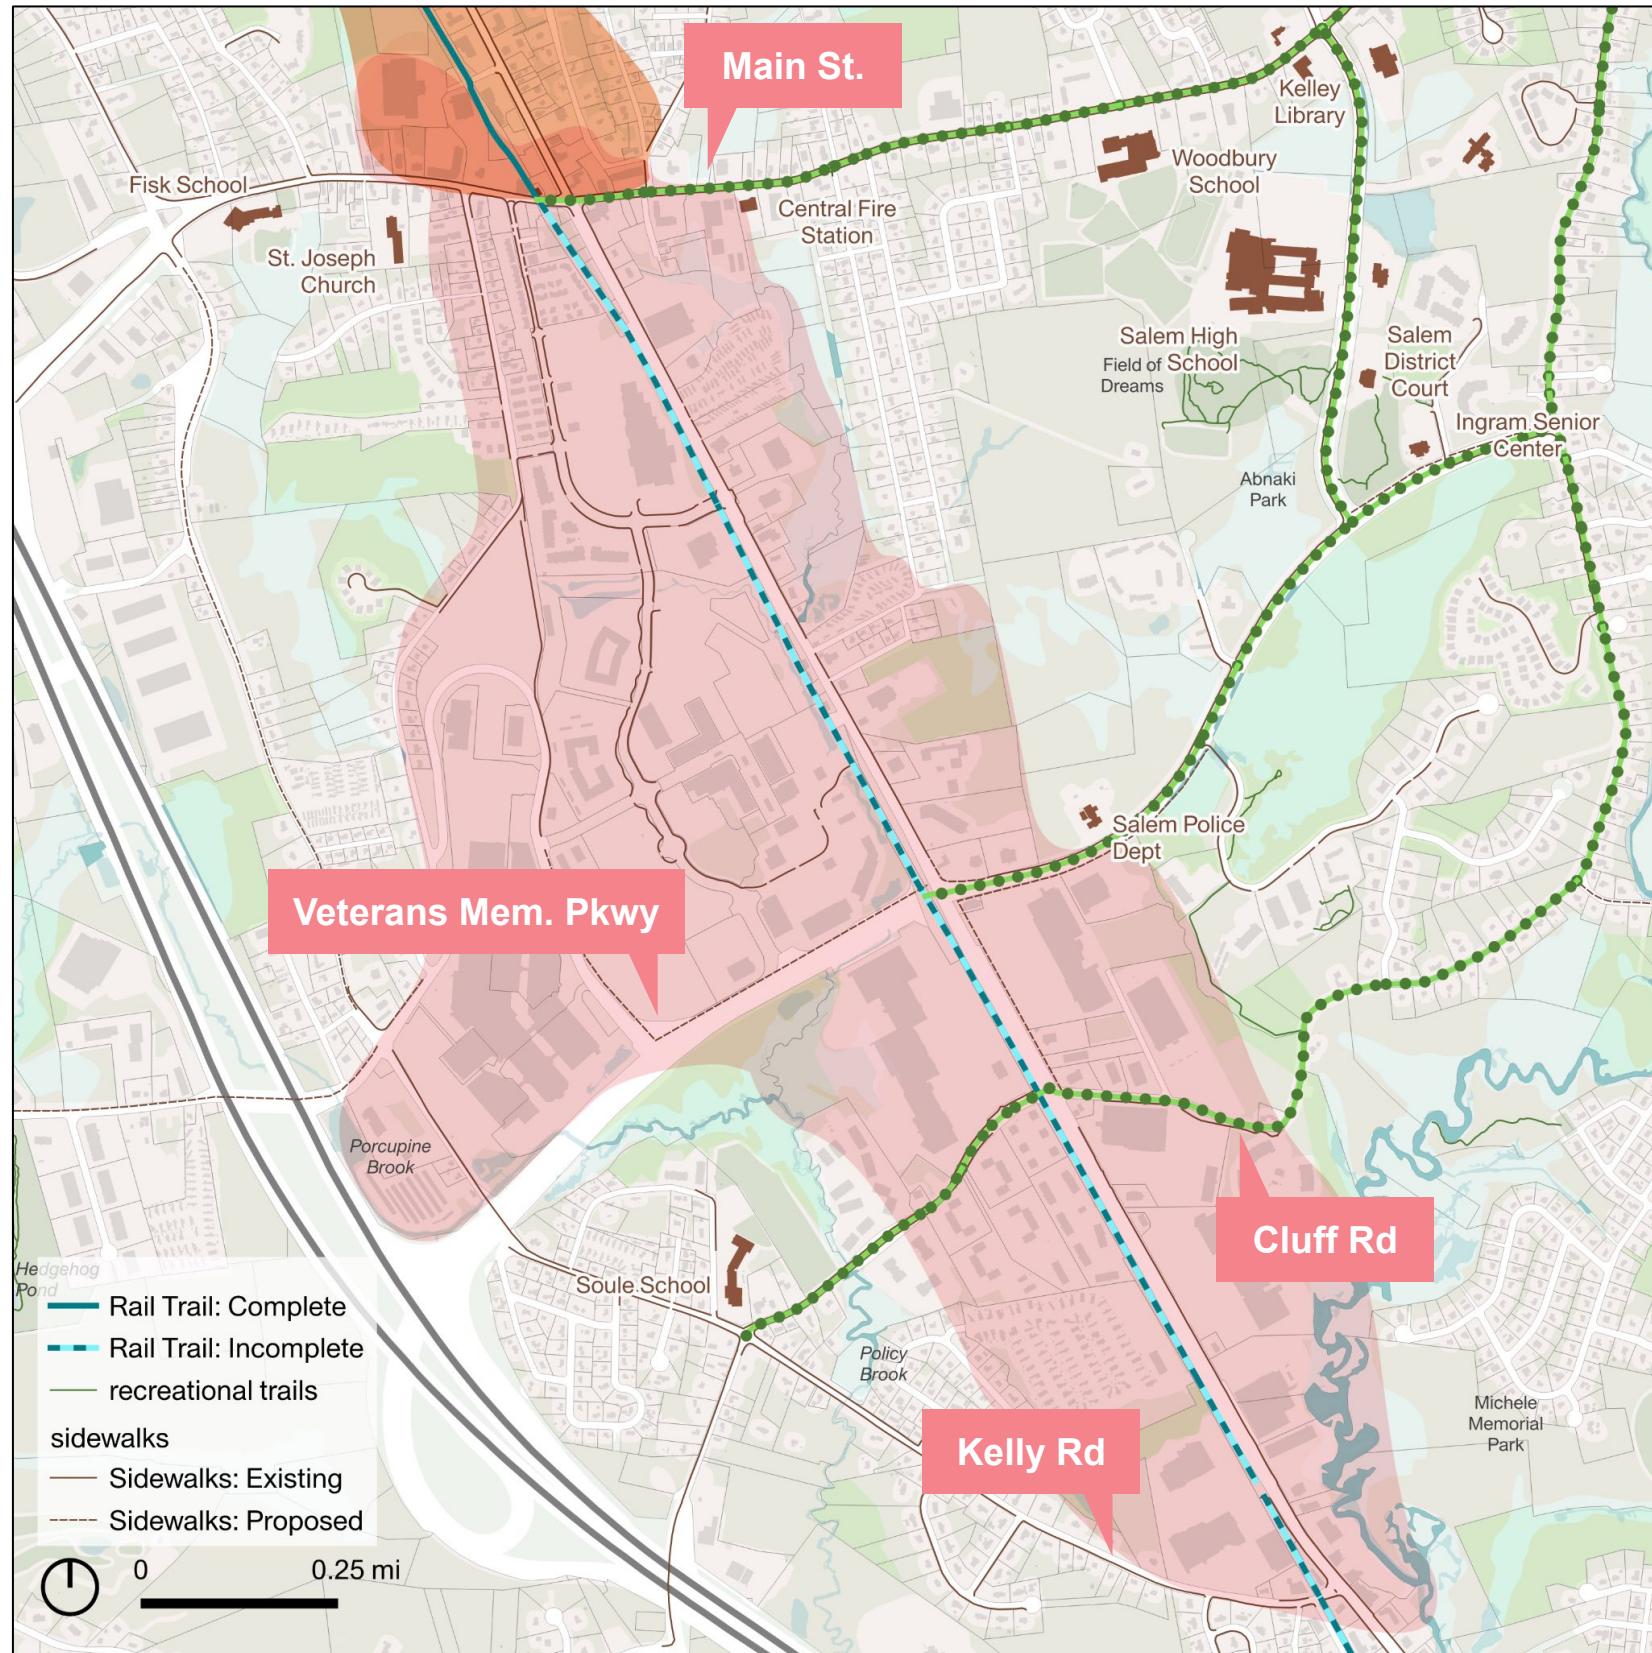

Big Move

Complete streets connecting Rail Trail to Historic Town Center & Civic Core

MIXED USE CORE

Focus and contain higher density mixed use in the core, and deter elsewhere

- **Engagement Driver(s):** RT-28 has proven itself a healthy commercial corridor with retail at multiple scales and low vacancy. Let the market continue to do its thing. But at the same time, harness and guide the trend towards growth brought on by Tuscan in order to alleviate residents' concerns about densification (60% of Pol.is respondents are opposed to higher density in future development)
- **Goal/Rationale:** absorb development pressure spurred by Tuscan to maintain lower density in rest of Town; leverage Tuscan's growth to give some teeth to the Depot Overlay;
- **Big Move:** incentivize mixed-use development on market-viable parcels along RT-28 and Depot intersection of Main St. e.g.,
 - 33% commercial ground floor
 - 3 stories max without retail; 5 max with ground floor retail
 - Other site design standards (e.g. curb cuts, parking, building placement and orientation, parking sited in rear)
- **Supporting Townwide Strategies:** TBD

MISSING MIDDLE EDGES

Encourage quality housing aligned with residents' budgets and family sizes

- **Engagement Driver(s):** Residents have expressed concerns about affordability (62% of Pol.is respondents do not feel confident that they could find a home within their budget if they had to move within the Town); seniors have expressed their desire to age-in-place; Tuscan commercial growth creating demand for young workforce.
- **Goal/Rationale:** Increase housing supply to stabilize housing market; offer smaller (and ADA-accessible) home options for young workforce and downsizing seniors; leverage Tuscan's growth on RT-28 to strategically locate multi-family typologies
- **Big Move:** Update zoning to encourage appropriately scaled multifamily housing options along RT-28 north of Depot, e.g.
 - 2-3 stories for townhouse & apt development
 - 4-5 stories with ground floor of commercial
- **Supporting Townwide Strategies:**
 - Encourage missing middle housing on parcels that can accommodate it in all areas with sewer access, and especially in areas within a 15 minute walk of the Town Center(s).
 - Additional TBD

GATHERING SPACES

Invest in beautification and infrastructure to reinforce gathering spaces

- **Engagement Driver(s):** 70% of Pol.is respondents agreed that a vibrant Town Center active through the evening hours will be an asset to the entire town.
- **Goal/Rationale:** Cultivate Historic Town Center as a counterweight/complement to Tuscan Village; Preserve historic character and assets of Town; Increase walkability, recreation, and civic space access for residents.
- **Big Move:** Historic Town Center intersection safety improvements and beautification, e.g.
 - a. decreasing turning radii,
 - b. removing the slip lane,
 - c. evaluating feasibility of turning the intersection into a 4-way stop.
- **Supporting Townwide Strategies:** TBD

TOWN CONNECTORS

Connect key assets and gathering places with safe and complete streets

- **Engagement Driver(s):** 71% of Pol.is respondents believed the Town should invest in sidewalk infrastructure and a linked network of open space; relatedly, 57% disagreed with the claim that bike and ped access is a waste of resources.
- **Goal/Rationale:** Increase pedestrian & bike safety; integrate Tuscan Village into Town at pedestrian scale; activate potential of Rail Trail; physical and symbolic connection of old Town Center and Tuscan Village
- **Big Move:** Complete the Rail Trail with improved, safe crossings of all vehicular roads.
- **Supporting Townwide Strategies:**
 - Connect the Rail Trail to the Historic Town Center and High School with a two-tiered Town Connector complete streets framework of Town Center Connectors (pictured) and Neighborhood Connectors.
 - TBD

Development Vision Focus Areas

Development Vision Focus Areas

2. Depot

- Adaptive Reuse of Historic Train Station with Public Realm Improvements (already in progress)
- Recreational Development on Vacant Town-Owned Parcels
- Rail Trail Enhancements & Continuation
- New Mixed Use & Multifamily Residential Development

1. Historic Town Center

- Street Safety & Traffic Calming
- Public Realm Improvements
- Adaptive Reuse & Street Activation for Existing Historic Buildings
- Programmatic Activation of Salem Common

Next Steps

1. Summer Public Outreach

- a. Community Event Participation
- b. Other Outreach & Awareness Building

2. Fall Draft Plan Survey

September Launch (to coincide with Workshop)

3. Draft Plan Public Workshop

- a. When: September 18, 6-8pm
- b. Where: High School

4. Next Steering Committee Meeting

- a. When: Wednesday, Nov 20th, 6-8pm
- b. Focus: Draft Plan Feedback & Refinement

Upcoming Steering Committee Meeting Dates & Times:

Generally the 3rd Wednesday of each month, 6pm-8pm, with a few exceptions. We are reserving every month for flexibility but will cancel meetings that are not needed as the project schedule solidifies. We anticipate no more than 6 meetings.

- November 20th
- December 11th

Please reserve these dates from 6-8pm.

A historical panoramic map of a town, likely from the late 19th or early 20th century. The map shows a dense cluster of houses and buildings in the foreground, with a large industrial complex featuring several large buildings and a tall smokestack emitting smoke. The town is laid out with streets and roads, and there are fields and hills in the background. The map is rendered in a sepia or brownish tone.

Thank You!
