Dear Ms. O'Reilly,

The Town of Salem is in receipt of your request for documents under NH RSA 91-A, which we received on July 24, 2025.

As you know, in accordance with NH RSA 91-A:4, IV(b-1-3), the Town of Salem shall, within five business days, "make such record available, deny the request (to include a brief explanation of how the exemption applies to the record withheld), or provide a written statement of the time reasonably necessary to determine whether the request shall be granted or denied and the reason for the delay." Please consider this letter as fulfillment of your request.

In your request, you specifically requested the following:

*Specifically, it is hereby requested that copies of any and all information and documentation held by the Town of Salem, NH Building Department/Inspectional Services, including but not limited to plans, building and other permits, and/or any information relating to asbestos-containing products, be produced relating to 5 Gloria Rd, Salem, NH.*

**Husbandry of Bees**

Mr. LaFlamme,

As we discussed on May 3, 2022, our office received a complaint regarding the keeping of bees on your property. Please be advised that New Hampshire RSA 21:34-a (attached) defines the husbandry of bees and the production of honey as an agricultural activity. The Town's zoning ordinance does not permit agricultural activities as defined by RSA 21:34-a in the Residential District, therefore the husbandry of bees is not a permitted use at your residence.

As previously discussed, we anticipate that the bees will be removed from your property on or before May 20, 2022 in order to bring this matter into compliance. Thank you for your prompt attention to this matter and for meeting with me to discuss the situation.

Please contact me if you have any questions.

Sincerely,

Jacob LaFontaine  
Assistant Planner
